Overview of this information:

(1) *Type of information collection:* Reinstatement, with change, of a previously approved collection for which approval has expired.

(3) *Agency form number, if any, and the applicable component of the department sponsoring the collection:* ITS-1. Bureau of Justice Statistics, Office of Justice Programs, Department of Justice.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract. Primary:* The survey will be administered to persons 16 years or older in NCVS sampled households in the United States. The Identity Theft Supplement (ITS) to the National Crime Victimization Survey collects, analyzes, publishes, and disseminates statistics on the prevalence, economic cost, and consequences of identity theft on victims.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* Approximately 79,400 persons 16 years of age or older will complete an ITS interview. The majority of respondents, approximately 75,500, will be administered the screening portion of the ITS, which is designed to filter out those people who have not been victims of identity theft, as well as a brief section on actions taken to reduce the risk of identity theft victimization. We estimate the average length of the ITS interview for these individuals will be 0.05 hours (three minutes). Based on findings from the 2008 ITS, we estimate that approximately 5% of respondents will have experienced at least one incident of identity theft during the prior year. For these victims, we estimate each interview will take 0.25 hours (15 minutes) to complete.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total respondent burden is approximately 4,766 hours.
