SUMMARY: The Department of Homeland Security (DHS), National Protection and Programs Directorate (NPPD), Office of Infrastructure Protection (IP) will submit the following Information Collection Request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35).

SUPPLEMENTARY INFORMATION: The Critical Infrastructure Private Sector Clearance Program (PSCP) sponsors clearances for private sector partners who are responsible for critical

infrastructure protection, but would not otherwise be eligible for a clearance under Executive Order 12829. These partners are subject matter experts within specific industries and sectors. The PSCP requires individuals to complete a clearance request form that initiates the clearance process. DHS Sector Specialists or Protective Security Advisors email the form to the individual who then emails back the completed form, minus their date and place of birth and social security number. The clearance request form is signed by both the Federal official who nominated the applicant and by the Assistant Secretary for Infrastructure Protection. Upon approval to process, the PSCP Administrator will contact the nominee to obtain the social security number, date and place of birth, and will then enter this data into e-QIP—Office of Personnel Management’s secure portal for investigation processing. Once the data is entered in e-QIP, the applicant can complete the online security questionnaire. The PSCP maintains all applicants’ information in the Master Roster, which contains all the information found on the clearance request form in addition to their clearance information (date granted, level of clearance, date non-disclosure agreements signed, and type/date of investigation). The Administrator of the Master Roster maintains the information so as to track clearance processing and investigation information and to have the most current contact information for the participants from each sector.

OMB is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

There is one ICR for each Collection.

The Coast Guard invites comments on whether these ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology. These comments will help OIRA determine whether to approve the ICRs referred to in this Notice.
