SUPPLEMENTARY INFORMATION: This RFI pertains to a draft FOA to be issued by the Office of Energy Efficiency and Renewable Energy, Building Technologies Office (BTO) on the effective implementation of resilient and efficient building energy codes. The intent of this RFI is to obtain public input from state and local government agencies, building officials, contractors, designers, builders, other industry representatives, community organizations, academia, research laboratories, and other stakeholders regarding the solicitation process and structure of a potential FOA to fund sustained cost-effective implementation of building energy codes, in accordance with the BIL.

DOE is seeking input from the public regarding the designs and goals of the potential FOA, with specific input requested on:

- Energy Code Implementation Criteria and Requirements for Key Topic Areas
- Advanced Energy Codes and Building Resilience
- Methods to Support Sustained State Energy Code Implementation
- Funding, Partnerships, Eligible Entities, and Evaluation Criteria
- Equity, Environmental and Energy Justice (EEEJ) Priorities
