

determine that this action will have a negligible impact on the species in the specified geographic region.

Based on the analysis contained herein of the likely effects of the specified activity on marine mammals and their habitat, and taking into consideration the implementation of the mitigation and monitoring measures, we find that the Observatory's planned research activities will result in the incidental take of small numbers of marine mammals, by Level B harassment only, and that the required measures mitigate impacts to affected species or stocks of marine mammals to the lowest level practicable.

Impact on Availability of Affected Species or Stock for Taking for Subsistence Uses

Section 101(a)(5)(D) of the Marine Mammal Protection Act also requires us to determine that the authorization will not have an unmitigable adverse effect on the availability of marine mammal species or stocks for subsistence use. There are no relevant subsistence uses of marine mammals in the study area (northeastern Pacific Ocean) that implicate section 101(a)(5)(D) of the MMPA.

Endangered Species Act

Of the species of marine mammals that may occur in the survey area, several are listed as endangered under the ESA, including the blue, fin, humpback, North Pacific right, sei, sperm, and Southern Resident killer whales. The Observatory did not request take of endangered North Pacific right whales because of the low likelihood of encountering these species during the cruise. No incidental takes of Southern Resident killer whales has been authorized.

Under section 7 of the ESA, the Foundation initiated formal consultation with the Service's Office of Protected Resources, Endangered Species Act Interagency Cooperation Division, on these seismic surveys. We (i.e., NMFS, Office of Protected Resources, Permits and Conservation Division), also initiated and engaged in formal consultation under section 7 of the ESA with the Endangered Species Act Interagency Cooperation Division to obtain a Biological Opinion evaluating the effects of issuing the Incidental Harassment Authorization under section 101(a)(5)(D) of the MMPA for this activity. These two consultations were consolidated and addressed in a single Biological Opinion addressing the direct and indirect effects of these interdependent actions. On June 8 and 11, 2012, new information was received

and consultation was reinitiated on the three proposed seismic surveys and the associated issuance of the Incidental Harassment Authorizations. The designs of the seismic surveys were modified and enhanced monitoring and mitigation measures were added to address concerns regarding endangered Southern Resident killer whales. In June and July 2012, we issued three Biological Opinions and concluded that the action and issuance of the Incidental Harassment Authorizations are not likely to jeopardize the continued existence of endangered or threatened cetaceans, pinnipeds, and sea turtles and included an Incidental Take Statement incorporating the requirements of the Incidental Harassment Authorizations as Terms and Conditions. Compliance with those Relevant Terms and Conditions of the Incidental Take Statement is likewise a mandatory requirement of the Incidental Harassment Authorizations. The Biological Opinion also concluded that designated critical habitat would not be destroyed or adversely modified by the surveys.

National Environmental Policy Act

With its complete application, the Foundation and the Observatory provided an "Environmental Assessment and Finding of No Significant Impact Determination Pursuant to the National Environmental Policy Act, (NEPA: 42 U.S.C. 4321 *et seq.*) and Executive Order 12114 for a Marine Seismic Survey in the northeastern Pacific Ocean, 2012," which incorporates an "Environmental Assessment of a Marine Geophysical Survey by the R/V *Marcus G. Langseth* in the Northeastern Pacific Ocean, June–July 2012," prepared by LGL Limited, Environmental Research Associates.

The Environmental Assessment analyzes the direct, indirect, and cumulative environmental impacts of the specified activities on marine mammals including those listed as threatened or endangered under the ESA. We have conducted an independent review and evaluation of the document for sufficiency and compliance with the Council of Environmental Quality and NOAA Administrative Order 216–6 § 5.09(d), Environmental Review Procedures for Implementing the National Environmental Policy Act, and have determined that issuance of the Incidental Harassment Authorizations is not likely to result in significant impacts on the human environment. Also, we have provided relevant environmental information to the public through the notice of the proposed Incidental

Harassment Authorization (77 FR 25966, May 2, 2012) and have considered public comments received in response prior to adopting the Foundation's Environmental Assessment. We have concluded that the issuance of the Incidental Harassment Authorizations would not significantly affect the quality of the human environment and have issued a separate Finding of No Significant Impact. Because we have made this finding, it is not necessary to prepare an Environmental Impact Statement for the issuance of the Incidental Harassment Authorizations to the Observatory for this activity.

Authorization

We have issued three Incidental Harassment Authorizations to the Observatory for the take of marine mammals incidental to conducting three marine seismic surveys in the northeast Pacific Ocean, June to July 2012, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Dated: July 10, 2012.

Helen M. Golde,

Acting Director, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–P

CONSUMER PRODUCT SAFETY COMMISSION

Sunshine Act Meeting

TIME AND DATE: Wednesday, July 18, 2012; 3 p.m.–5 p.m.

PLACE: Hearing Room 420, Bethesda Towers, 4330 East West Highway Bethesda, Maryland.

STATUS: Closed to the Public.

MATTER TO BE CONSIDERED:

Compliance Briefing

The Commission staff will brief the Commission on the status of compliance matters.

For a recorded message containing the latest agenda information, call (301) 504–7948.

CONTACT PERSON FOR MORE INFORMATION:

Todd A. Stevenson, Office of the Secretary, U.S. Consumer Product Safety Commission, 4330 East West Highway Bethesda, MD 20814, (301) 504–7923.

Dated: July 12, 2012.

Todd A. Stevenson,
Secretary.
