**GENERAL SERVICES  
ADMINISTRATION**

**[Notice MG-2024-03; Docket No. 2024-0002; Sequence No. 19]**

**Office of Federal High-Performance  
Green Buildings; Green Building  
Advisory Committee; Request for  
Membership Nominations**

**AGENCY:** Office of Government-wide Policy, General Services Administration (GSA).

**ACTION:** Notice of request for membership nominations.

**SUMMARY:** This notice invites qualified candidates to apply for an appointment to serve as a member of GSA's Green Building Advisory Committee. The Green Building Advisory Committee provides advice to GSA as a statutorily (see below for citations) required Federal advisory committee. This is a competitive process for multiple open membership seats.

**DATES:** All nominations must be submitted to [bryan.steverson@gsa.gov](mailto:bryan.steverson@gsa.gov) by 5:00 p.m., Eastern Time (ET), by November 27, 2024.

**FOR FURTHER INFORMATION CONTACT:** Mr. Bryan Steverson, Office of Federal High-Performance Green Buildings, GSA, at [bryan.steverson@gsa.gov](mailto:bryan.steverson@gsa.gov) or 202-501-6115.

**SUPPLEMENTARY INFORMATION:**

**Background**

The Administrator of the GSA established the Green Building Advisory Committee (hereafter, "the Committee") on June 20, 2011 (76 FR 118) pursuant to section 494 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17123, or EISA), in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. 1001 *et seq.*). Under this authority, the Committee advises GSA on how the Office of Federal High-Performance Green Buildings can most effectively accomplish its mission. Information about this Office is available online at <https://www.gsa.gov/hpb>, and information about the Committee may be found at <https://www.gsa.gov/gbac>. EISA requires the Committee to be represented by specific categories of members as well as "other relevant

agencies and entities, as determined by the Federal Director" (EISA § 494(b)(1)(B)). The specific categories of members include:

- "(i) State and local governmental green building programs;
- (ii) Independent green building associations or councils;
- (iii) Building experts, including architects, material suppliers, and construction contractors;
- (iv) Security advisors focusing on national security needs, natural disasters, and other dire emergency situations;
- (v) Public transportation industry experts; and
- (vi) Environmental health experts, including those with experience in children's health."

**Member Responsibilities**

New Committee members will be appointed to a three year term. Membership is limited to the specific individuals appointed and is non-transferrable. Committee members are expected to personally attend all meetings, review all Committee materials, and actively provide their advice and input on topics covered by the Committee. Committee members will not receive compensation, nor will they receive travel reimbursements from the Government except where a need has been demonstrated and funds are available.

**Request for Membership Nominations**

This notice provides an opportunity for individuals, or others on their behalf, to present their qualifications to serve as a member on the Committee. GSA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, GSA encourages nominations from people of all communities, identities, races, ethnicities, backgrounds, abilities, cultures, and beliefs, including from underserved communities and all geographic locations of the United States of America. No person appointed to serve in an individual capacity shall be a federally registered lobbyist in accordance with the Presidential Memorandum "Lobbyists on Agency Boards and Commissions" (June 18, 2010) and OMB Final Guidance published in the **Federal Register** on October 5, 2011 and revised on August 13, 2014.

**Nomination Process for Advisory  
Committee Appointment**

Individuals may nominate themselves or others. All nominees should have:

- At least 5 years of high-performance green building experience, which may

include a combination of project-based, research and policy experience.

- Academic degrees, certifications and/or training demonstrating green building and related sustainability and real estate expertise;
- Knowledge of Federal sustainability and energy laws and programs;
- Proven ability to work effectively with a diverse group of professionals in a collaborative, multidisciplinary environment.

- Qualifications appropriate to a specific statutory category of members listed above.

A nomination package shall include the following information for each nominee:

(1) A letter of nomination stating the name, title and organization of the nominee, nominee's field(s) of expertise, specific qualifications to serve on the Committee, and description of interest and qualifications;

(2) A professional resume or CV; and

(3) Complete contact information including name, return address, email address, and daytime telephone number of the nominee and nominator.

GSA reserves the right to choose Committee members based on qualifications, experience, Committee balance, statutory requirements and all other factors deemed critical to the success of the Committee. Candidates under consideration may be asked to provide specific financial information to ensure that the interests and affiliations of advisory committee members are reviewed for conformance with applicable conflict of interest statutes and other Federal ethics rules.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[Docket Number CDC-2024-0085, NIOSH-153-F]

#### Request for Public Comment on the Draft Skin Notation Profiles: Allyl Alcohol, Formamide, Formic Acid, Phenothiazine, and Picric Acid

**AGENCY:** Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

**ACTION:** Request for comment.

**SUMMARY:** The National Institute for Occupational Safety and Health (NIOSH) in the Centers for Disease Control and Prevention (CDC), an Operating Division of the Department of Health and Human Services (HHS), requests public comment on the draft Skin Notation Profiles: Allyl alcohol, Formamide, Formic Acid, Phenothiazine, and Picric Acid.

**DATES:** Electronic or written comments must be received by December 27, 2024.

**ADDRESSES:** You may submit comments, identified by docket number CDC-2024-0085 and docket number NIOSH-153-F, by either of the following methods:

• *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

• *Mail:* National Institute for Occupational Safety and Health, NIOSH Docket Office, 1090 Tusculum Avenue, MS C-34, Cincinnati, OH 45226-1998.

*Instructions:* All information received in response to this notice must include the agency name and docket number (CDC-2024-0085; NIOSH-153-F). All relevant comments, including any personal information provided, will be posted without change to <https://www.regulations.gov>. Do not submit comments by email. CDC does not accept comments by email. For access to the docket to read background documents or comments received, go to <https://www.regulations.gov>.

**SUPPLEMENTARY INFORMATION:** NIOSH is requesting public comment on draft Skin Notation Profile documents for the chemicals Allyl alcohol, Formamide, Formic Acid, Phenothiazine, and Picric Acid. To facilitate the review of these documents, NIOSH requests responses to the following specific questions for each draft Profile document:

1. Does this document clearly outline the systemic health hazards associated with exposures of the skin to the chemical? If not, what specific information is missing from the document?

2. If the SYS or SYS (FATAL) notations are assigned, are the rationale and logic behind the assignment clear? If not assigned, is the logic clear why it was not (e.g., insufficient data, no identified health hazard)? If not clear, what clarification is suggested?

3. Does this document clearly outline the direct (localized) health hazards associated with exposures of the skin to

the chemical? If not, what specific information is missing from the document?

4. If the DIR, DIR (IRR), or DIR (COR) notations are assigned, are the rationale and logic behind the assignment clear? If not assigned, is the logic clear why it was not (e.g., insufficient data, no identified health hazard)? If not clear, what clarification is suggested?

5. Does this document clearly outline the immune-mediated responses (allergic response) associated with exposures of the skin to the chemical? If not, what specific information is missing from the document?

6. If the SEN notation is assigned, are the rationale and logic behind the assignment clear? If not assigned, is the logic clear why it was not assigned (e.g., insufficient data, no identified health hazard)? If not clear, what clarification is suggested?

7. If the ID (SK) or SK were assigned, are the rationale and logic outlined clearly within the document? If not clear, what clarification is suggested?

8. Are the conclusions supported by the data? If not, what changes are suggested?

9. Are the tables clear and appropriate? If not, what changes are suggested?

10. Are you aware of any scientific data reported in governmental publications, databases, peer-reviewed journals, or other sources that should be considered within this document? Please include the full reference citation for any additional scientific data to be considered.

11. There have been considerable improvements and advancements in dermal absorption studies and modeling since the publication of NIOSH Current Intelligence Bulletin 61: A Strategy for Assigning New NIOSH Skin Notations [NIOSH 2017]. In response to expert external peer reviewers' comments regarding the limitation of the skin to inhalation dose (SI) ratio information, the SI ratio was removed from the individual skin notation profile documents. Do you have any information to support removing or including the SI ratio information in these NIOSH documents?

The draft Skin Notation Profiles were developed to provide the scientific rationale behind the development of skin notation designations for the following chemicals:

- Allyl alcohol (CAS: 107-18-6)
- Formamide (CAS: 75-12-7)
- Formic acid (CAS: 64-18-6)
- Picric acid (CAS: 88-89-1)
- Phenothiazine (CAS: 92-84-2)

The Skin Notation Profiles provide a detailed summary of the health hazards
