ICR Title: Submission of Unreasonable Adverse Effects Information under FIFRA Section 6(a)(2).

ICR Status: This is a request for renewal of an existing approved collection that is currently scheduled to expire on January 31, 2004. EPA is asking OMB to approve this ICR for three years. Under 5 CFR 1320.12(b)(2), the Agency may continue to conduct or sponsor the collection of information while the submission is pending at OMB.

Abstract: Section 6(a)(2) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) requires pesticide registrants to submit any factual information to the Agency that they acquire which may be relevant to the balancing of the risks and benefits of a pesticide product, specifically, information regarding adverse effects associated with their pesticide products.

Burden Statement: The annual “respondent” burden for this ICR is estimated to be 155,639 hours, or 83

hours per response. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection, it is the time reading the regulations, planning the necessary data collection activities, conducting tests, analyzing data, generating reports and completing other required paperwork, and storing, filing, and maintaining the data. The agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection appears at the beginning and the end of this document. In addition OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9.

The following is a summary of the burden estimates taken from the ICR:

Respondents/affected entities:
Pesticide registrants.

Estimated total number of potential respondents: 1,900.

Frequency of response: As needed.

Estimated total/average number of responses for each respondent: 24.

Estimated total annual burden hours:
155,639 hours.

Estimated total annual burden costs:
\$12,057,947.

Changes in the ICR Since the Last Approval: The total estimated annual respondent burden for this ICR has decreased by 10,627 hours (166,266 to 155,639), due mainly to a decrease in the number of responses expected. Estimated costs have decreased \$356,121 (from \$12,414,068 to \$12,057,947) for the same reason. These decreases are explained more fully in the ICR.

According to the procedures prescribed in 5 CFR 1320.12, EPA has submitted this ICR to OMB for review and approval. Any comments related to the renewal of this ICR should be submitted within 30 days of this notice, as described above.

Dated: January 20, 2004.

Doreen Sterling,

Acting Director, Collection Strategies Division.
