Total Estimated Number of Annual Burden Hours: 4,500.

Abstract: This supporting statement serves as an update to approved OMB package 1810-0669. Implemented under the No Child Left Behind Act of 2001, Title II, Part B, the Mathematics and Science Partnerships (MSP) program is a formula grant program strategically designed to improve the content knowledge of teachers and the academic performance of students in mathematics and science. By funding collaborative partnerships between science, technology, engineering, and mathematics (STEM) departments at institutions of higher education (IHEs), and high-need school districts, the MSP program enables the delivery of intensive, content-rich professional development intended to improve classroom instruction and, ultimately, to raise student achievement in math and science.

Because MSP is a formula grant program, the size of individual state awards is based on student population and poverty rates, with no state receiving less than one half of one percent of the total appropriation. Each state is then responsible for administering a competitive grant making process to determine the distribution of funds across proposed MSP projects.
