On June 17, 2021, the Commission established a Joint Federal-State Task Force on Electric Transmission (Task Force) to formally explore transmission-related topics outlined in the Commission's order.¹ The Commission stated that the Task Force will convene for multiple formal meetings annually, which will be open to the public for listening and observing and on the record.² The first public meeting of the Task Force was held on November 10, 2021, in Louisville, Kentucky.³ The second public meeting of the Task Force will be held on Wednesday, February 16, 2022, from approximately 10:00 a.m. to 2:00 p.m. Eastern time. The meeting will be held at the Renaissance Downtown Hotel in Washington, DC. Commissioners may attend and participate in this meeting.

The meeting will be open to the public for listening and observing and on the record. There is no fee for attendance and registration is not required. The public may attend in person or via Webcast.⁴ This conference will be transcribed. Transcripts will be available for a fee from Ace Reporting, 202–347–3700.

array of transmission-related topics that the Task Force has the authority to examine and will focus on topics related to planning and paying for transmission, including transmission to facilitate generator interconnection, that provides benefits from a federal and state perspective.⁶ The first public meeting focused on incorporating state perspectives into regional transmission planning. In anticipation of the second public meeting, all interested persons, including all state commissions, are hereby invited to file comments in this docket on agenda topics for the second public meeting of the Task Force, due January 4, 2022. The Task Force members will consider the suggested agenda topics in developing the agenda for the second public meeting.
