RIN 2060-AJ37

Stay of the Eight-Hour Portion of the Findings of Significant Contribution and Rulemaking for Purposes of Reducing Interstate Ozone Transport

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: In today's action, EPA is amending a final rule it issued under section 110 of the Clean Air Act (CAA) related to interstate transport of pollutants. The EPA is staying its findings in the nitrogen oxides State Implementation Plan call (NO_x SIP call) related to the 8-hour ozone national ambient air quality standards (NAAQS).

In the final NO_x SIP call, EPA found that emissions of NO_x from 22 States and the District of Columbia (23 States) significantly contribute to downwind areas' nonattainment of the 1-hour ozone NAAQS. The EPA also separately

found that NO_x emissions from the same 23 States significantly contribute to downwind nonattainment of the 8-hour ozone NAAQS.

Subsequently, the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Circuit) remanded the 8-hour ozone NAAQS. *American Trucking Associations, Inc. v. EPA*, 175 F.3d 1027 *on rehearing* 195 F.3d 4 (D.C. Cir. 1999). The EPA proposed to stay the 8-hour basis of the NO_x SIP call rule based on the uncertainty created by the D.C. Circuit's decision. Four parties commented on the proposed rule which was published on March 1, 2000 (65 FR 11024). No requests were made to hold a public hearing. After considering these comments, EPA has determined to finalize its proposed stay of the 8-hour basis of the NO_x SIP call rule.

DATES: The final rule is effective October 18, 2000.

ADDRESSES: Documents relevant to this action are available for inspection at the Air and Radiation Docket and Information Center (6102), Attention: Docket No. A-96-56, U.S. Environmental Protection Agency, 401 M Street, SW, Room M-1500, Washington, DC 20460, telephone (202) 260-7548 between 8:00 a.m. and 5:30 p.m., Monday through Friday, excluding legal holidays.
