[Docket No. CP16-18-000]

Magnum Gas Storage, LLC; Notice of Application for Amendment

Take notice that on November 16, 2015, Magnum Gas Storage, LLC (Magnum), 3165 E. Millrock Dr., #330, Holladay, Utah 84121, filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Parts 157 and 284 of the Commission's Regulations requesting that the Commission approve an amendment (Amendment) to the certificate of public convenience and necessity issued to the Magnum in Docket No. CP10-22-000 on March 17, 2011 (March 17 Order). The March 17 Order authorized Magnum to construct facilities in Millard, Juab, and Utah Counties, Utah consisting of four salt caverns, various related

aboveground supporting facilities and a 61.6-mile long, 36-inch diameter, header pipeline extending from the storage site to points of interconnection with existing interstate gas transmission facilities owned by Kern River Gas Transmission Company and Questar Pipeline Company near Goshen, Utah.

The Amendment requested by Magnum would authorize the relocation of Magnum's approved natural gas storage caverns and associated surface facilities within the previously analyzed Project area, grant authority to Magnum to provide a new firm wheeling transportation service under market-based rates, and extend the time by which the facilities must be constructed and placed in service. The filing may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding, or issue a Notice of Schedule for Environmental Review.
