

voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023-01, and Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-4370f), and have concluded that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded under figure 2-1, paragraph (32)(e), of the Instruction.

Under figure 2-1, paragraph (32)(e), of the Instruction, an environmental analysis checklist and a categorical exclusion determination are not required for this rule.

List of Subjects in 33 CFR Part 117

Bridges.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05-1; Department of Homeland Security Delegation No. 0170.1.

■ 2. From May 1, 2010 to March 1, 2011, temporarily suspend § 117.875 and temporarily add § 117.876T to read as follows:

§ 117.876T Coquille River.

The draws of the U.S. 101 highway bridge, mile 3.5 at Bandon, Oregon, need not open for the passage of vessels from May 1, 2010 to March 1, 2011.

Dated: March 2, 2010.

G.T. Blore,

Rear Admiral, U.S. Coast Guard, Commander, Thirteenth Coast Guard District.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[USCG-2010-0084]

Drawbridge Operation Regulations; Long Island, New York Inland Waterway from East Rockaway Inlet to Shinnecock Canal, NY, Maintenance

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, First Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the Wreck Lead Railroad Bridge across Reynolds Channel, mile 4.4, New York. This deviation allows the bridge to remain in the closed position for six hours to facilitate bridge maintenance. Vessels that can pass under the draw without a bridge opening may do so at all times. **DATES:** This deviation is effective from 9 a.m. through 3 p.m. on March 20, 2010.

ADDRESSES: Documents mentioned in this preamble as being available in the docket are part of docket USCG-2010-0084 and are available online at <http://www.regulations.gov>. They are also available for inspection or copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule call Judy Leung-Yee, Project Officer, First Coast Guard District, at (212) 668-7165. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION: The Wreck Lead Railroad Bridge across Reynolds Channel at mile 4.4, New York, has a vertical clearance in the closed position of 3 feet at mean high water and 7 feet at mean low water. The bridge opens on signal as required by 33 CFR 117.799.

The bridge owner, the Long Island Rail Road (MTA), requested a temporary deviation to replace the motor locks at the bridge. The bridge can not open during the installation of the motor locks.

Under this deviation the Wreck Lead Railroad Bridge may remain closed from 9 a.m. through 3 p.m. on March 20, 2010. Vessels able to pass under the closed draw may do so at all times.

The waterway is used by recreational and commercial vessels. All known waterway users were advised of the requested bridge closure period and offered no objection. In accordance with 33 CFR 117.35(e), the bridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 2, 2010.

Gary Kassof,

Bridge Program Manager, First Coast Guard District.

Coast Guard

33 CFR Part 165

[Docket No. USCG-2010-0120]

RIN 1625-AA00

Safety Zone; Gallants Channel, Beaufort, NC

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the waters of Gallants Channel at Beaufort, North Carolina. The safety zone is necessary to provide for the safety of mariners on navigable waters during maintenance to the Grayden Paul Draw Bridge.

DATES: *Effective Date:* This rule is effective in the CFR from March 17, 2010 through 12 p.m. April 30, 2010. This rule is effective with actual notice for purposes of enforcement beginning 6 a.m. March 1, 2010, through 12 p.m. April 30, 2010.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG-2010-0120 and are available online by going to <http://www.regulations.gov>, inserting USCG-2010-0120 in the "Keyword" box, and then clicking "Search." They are also available for inspection or

copying at the Docket Management Facility (M-30), U.S. Department of Transportation, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call or e-mail CWO4 Stephen Lyons, Waterways Management Division Chief, Coast Guard Sector North Carolina; telephone (252) 247-4525, e-mail Stephen.W.Lyons2@uscg.mil. If you have questions on viewing the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

Regulatory Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are "impracticable, unnecessary, or contrary to the public interest." Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because immediate action is necessary to provide for safety of life and property on navigable waters and due to the hazards associated with potential falling debris and the use of heavy equipment and machinery in the waterway.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Delaying the effective date would be contrary to public interest, since immediate action is needed to ensure the safety of human life and property from the hazards of falling debris and the use of heavy equipment and machinery in the waterway.

Background and Purpose

The State of North Carolina Department of Transportation awarded a contract to Hames Contracting Inc. of Alpharetta, Georgia, to perform bridge maintenance on the Grayden Paul Draw Bridge at the Gallants Channel crossing to Beaufort, North Carolina. The contract provides for cleaning, painting, steel repair, and grid floor replacement to begin on March 1, 2010, and will be completed by April 30, 2010. The

contractor will be utilizing a 110' deck barge with a 30' beam as a work platform and equipment staging. Since the bridge repairs present potential hazards to mariners and property from falling debris and the use of heavy equipment and machinery, this safety zone will provide for the safety of the public. The Coast Guard will temporarily restrict access to this section of Gallants Channel during the maintenance period when the deck barge is obstructing the waterway.

Discussion of Rule

The temporary safety zone will encompass the waters of Gallants Channel extending 50 yards in all directions from the main span of the Grayden Paul Draw Bridge located at 34°43'21" N by 076°40'09" W. All vessels are prohibited from transiting this section of the waterway while the safety zone is in effect. Entry into the zone will not be permitted except as specifically authorized by the Captain of the Port or a designated representative. To seek permission to transit the area, mariners can contact Sector North Carolina at telephone number (252) 247-4570. This zone will be enforced from 6 a.m. March 1, 2010, through 12 p.m. April 30, 2010.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

Although this regulation will restrict access to the area, the effect of this rule will not be significant because: (i) The safety zone will be in effect for a limited duration of time, (ii) the Coast Guard will give advance notification via maritime advisories so mariners can adjust their plans accordingly, and (iii) there are alternate routes to transit safely around the safety zone.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities.

The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which may be small entities: The owners or operators of dive, recreational, and fishing vessels intending to transit the specified portion of Gallants Channel from 6 a.m. March 1, 2010, through 12 p.m. April 30, 2010.

This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons. This rule will be in effect for a limited duration of time. Although the safety zone will apply to the entire width of Gallants Channel, vessel traffic can use alternate waterways to transit safely around the safety zone. Before the effective period, the Coast Guard will issue maritime advisories widely available to the users of the waterway.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121), we offer to assist small entities in understanding the rule so that they can better evaluate its effects on them and participate in the rulemaking process.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1-888-REG-FAIR (1-888-734-3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct

effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because

it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule is categorically excluded, under figure 2–1, paragraph (34)(g), of the Instruction. This rule establishes a temporary safety zone to protect the public from bridge maintenance operations. An environmental analysis checklist and a categorical exclusion determination are available in the docket where indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR Part 165 as follows:

PART 165—SAFETY ZONES

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05–1, 6.04–1, 6.04–6 and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. Add temporary § 165.T05–0120 to read as follows:

§ 165.T05–0120 Safety Zone; Gallants Channel, Beaufort, North Carolina.

(a) *Definitions.* For the purposes of this section, “Captain of the Port” means the Commander, Sector North Carolina. “Designated Representative” means any Coast Guard commissioned, warrant, or petty officer who has been authorized to act on the behalf of the Captain of the Port.

(b) *Location.* The following area is a safety zone: The waters of Gallants Channel extending 50 yards in all directions from the main span of the Grayden Paul Draw Bridge located at 34°43′21″ N by 076°40′09″ W.

(c) *Regulations.*

(1) The general regulations contained in § 165.23 of this part apply to the area described in paragraph (b) of this section.

(2) Persons or vessels requiring entry into or passage through any portion of the safety zone must first request authorization from the Captain of the Port, or a designated representative, unless the Captain of the Port previously announced via Marine Safety Radio Broadcast on VHF Marine Band Radio channel 22 (157.1 MHz) that this regulation will not be enforced in that portion of the safety zone. The Captain of the Port can be contacted at telephone number (252) 247–4570 or by radio on VHF Marine Band Radio, channels 13 and 16.

(d) *Enforcement.* The U.S. Coast Guard may be assisted in the patrol and enforcement of the zone by Federal, State, and local agencies.

(e) *Enforcement period.* This section will be enforced from 6 a.m. March 1, 2010, through 12 p.m. April 30, 2010, unless cancelled earlier by the Captain of the Port.

Dated: February 23, 2010.

A. Popiel,

Captain, U.S. Coast Guard, Captain of the Port North Carolina.
