44 CFR Part 65

Docket ID FEMA-2008-0020; Internal Agency Docket No. FEMA-B-1067]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Interim rule.

SUMMARY: This interim rule lists communities where modification of the Base (1% annual-chance) Flood Elevations (BFEs) is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified BFEs for new buildings and their contents.

DATES: These modified BFEs are currently in effect on the dates listed in the table below and revise the Flood Insurance Rate Maps (FIRMs) in effect prior to this determination for the listed communities.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which to request through the community that the FEMA Assistant Administrator for Mitigation reconsider the changes. The modified BFEs may be changed during the 90-day period.

ADDRESSES: The modified BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

Kevin C. Long, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-2820.

SUPPLEMENTARY INFORMATION: The modified BFEs are not listed for each community in this interim rule. However, the address of the Chief Executive Officer of the community where the modified BFE determinations are available for inspection is provided.

Any request for reconsideration must be based on knowledge of changed conditions or new scientific or technical data.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified BFEs are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact

stricter requirements of its own, or pursuant to policies established by the other Federal, State, or regional entities. The changes in BFEs are in accordance with 44 CFR 65.4.

National Environmental Policy Act.

This interim rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This interim rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism.

This interim rule involves no policies that have federalism implications under Executive Order 13132, Federalism.

Executive Order 12988, Civil Justice Reform. This interim rule meets the applicable standards of Executive Order 12988.

SUPPLEMENTARY INFORMATION:

Background

This temporary final rule extends the interim rule published on April 13, 2009 (74 FR 17030), as modified by the interim rule published on July 8, 2009 (74 FR 32466), through April 30, 2010, in order to manage the NE multispecies fishery through the end of FY 2009 (April 30, 2010). Those interim final rules, and the preceding proposed rule of January 16, 2009 (74 FR 2959),

include detailed information on the background and reasons for the need to reduce fishing effort in the NE multispecies fishery for FY 2009. The public had an opportunity to comment on both the proposed and final rules. NMFS will accept public comment after publication of this temporary rule to extend, both on the effectiveness of the emergency action to date, and its extension.

All measures in effect prior to May 1, 2009, that were not amended by the April 13, 2009, final interim rule (as amended) will remain in effect. This action extends these measures through April 30, 2010.

The interim management measures extended through this interim rule are as follows: Maintenance of the scheduled FY 2009 DAS reduction included in the FMP, which results in an approximately 18-percent reduction in Category A days-at-sea (DAS); an expanded differential DAS counting area in Southern New England (SNE), where a vessel is charged 2 days for every day fished; modified trip limits (zero possession of SNE winter flounder, windowpane flounder (north), ocean pout, and witch flounder; 2,000 lb (909.1 kg)/DAS up to 10,000 lb (4,545.5 kg)/trip for white hake, and unrestricted possession of Georges Bank (GB) winter flounder); specification of target Total Allowable Catches (TACs); revisions to incidental catch TACs and allocations to special management programs; annual specifications for the U.S./Canada Management Area; elimination of the SNE/Mid-Atlantic (MA) Winter Flounder Special Access Program (SAP); elimination of the state waters winter flounder exemption; modification of the Closed Area I (CA I) Hook Gear Haddock SAP; reduction of the haddock minimum size to 18 inches (45 cm); extension of the Eastern U.S./Canada Haddock SAP; modifications to the Regular B DAS Program; DAS Leasing Program modifications; DAS Transfer Program modifications; implementation of monkfish DAS rules to mitigate impacts of the NE multispecies interim action; revision of the FY 2009 GB cod TACs for sectors; and modifications to the recreational measures, including extension in time of a seasonal
