[Docket No. USCG-2011-1023]

RIN 1625-AA08; 1625-AA00

Special Local Regulations and Safety Zones; Recurring Events in Northern New England

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to update recurring special local regulations and safety zones in the Coast Guard Captain of the Port (COTP) Northern New England Zone for annual recurring marine events. When these special local regulations or safety zones are subject to enforcement, this rule would restrict vessels from portions of water areas during these annual recurring events. The revised special local regulations and safety zones would expedite public notification of events, and ensure the protection of the maritime public and event participants from the hazards associated with these annual recurring events.

Basis and Purpose

The legal basis for the proposed rule is 33 U.S.C. 1226, 1231, 1233; 46 U.S.C. chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, and 160.5; Public Law 107-295, 116 Stat. 2064; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define regulatory safety zones and special local regulations.

Swim events, fireworks displays, and marine events are held on an annual recurring basis on the navigable waters within the Coast Guard COTP Northern New England Zone. In the past, the Coast Guard has established special local regulations, regulated areas and safety zones for these annual recurring events on a case by case basis to ensure the protection of the maritime public and event participants from the hazards associated with these events. The Coast Guard has not received public comments or concerns regarding the impact to waterway traffic from these annually recurring events.

This proposed rule will consistently apprise the public in a timely manner through permanent publication in Title 33 of the Code of Federal Regulations. The TABLES in this proposed regulation list each annual recurring event requiring a regulated area as administered by the Coast Guard.

By establishing permanent regulations containing these events, the Coast Guard would eliminate the need to establish temporary rules for events that occur on an annual basis and thereby limit the costs associated with cumulative regulations.

This rulemaking will remove, add, and consolidate regulations to better meet the Coast Guard's intended purpose of ensuring safety during these events.

Discussion of Proposed Rule

The Coast Guard proposes to amend 33 CFR 100.120 (Special Local Regulations) and 33 CFR 165.171 (Safety Zones).

The proposed rule would apply to the annual recurring events listed in the attached TABLES in the Coast Guard COTP Northern New England Zone. The TABLES provide the event name, sponsor, and type, as well as approximate dates and locations of the events. The specific times, dates, regulated areas, and enforcement period for each event will be provided through the Local Notice to Mariners, Broadcast Notice to Mariners or through a Notice of Enforcement published in the **Federal Register**.

The particular size of the safety zones established for each event will be reevaluated on an annual basis in accordance with Navigational and Vessel Inspection Circular (NVIC) 07-02, Marine Safety at Firework Displays, the National Fire Protection Association Standard 1123, Code for Fireworks Displays (100-foot distance per inch of diameter of the fireworks mortars), and other pertinent regulations and publications.

This proposed regulation would prevent vessels from transiting areas specifically designated as special local regulations or safety zones during the periods of enforcement to ensure the protection of the maritime public and event participants from the hazards associated with the listed annual recurring events. Only event sponsors, designated participants, and official patrol vessels will be allowed to enter regulated areas. Spectators and other vessels not registered as event participants may not enter the regulated areas without the permission of the COTP or the designated representative.

Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Regulatory Evaluation

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this proposed rule to be minimal. Although this regulation may have some impact on the public, the potential impact will be minimized for the following reasons: The Coast Guard has previously promulgated safety zones or special local regulations in accordance with 33 CFR Parts 100 and 165 for approximately 85% of the event areas contained within this proposed regulation and has not received notice of any negative impact caused by any of the safety zones or special local regulations. By establishing a permanent regulation containing all of these events, the Coast Guard will eliminate the need to establish individual temporary rules for each separate event that occurs on an annual basis, thereby limiting the cost of cumulative regulations.

Vessels will only be restricted from safety zones and special local regulation areas for a short duration of time. Vessels may transit in portions of the affected waterway except for those areas covered by the proposed regulated areas. Notifications will also be made to the local maritime community through the Local Notice to Mariners and Broadcast Notice to Mariners well in advance of the events. If the event does not have a date listed, then the exact

dates and times of the enforcement period will be announced through a Notice of Enforcement in the **Federal Register**. No new or additional restrictions will be imposed on vessel traffic.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: owners or operators of vessels intending to transit, fish, or anchor in the areas where the listed annual recurring events are being held.

The proposed rule would not have a significant economic impact on a substantial number of small entities for the following reasons: vessels will only be restricted from safety zones and special local regulation areas for a short duration of time; vessels may transit in portions of the affected waterway except for those areas covered by the proposed regulated areas; the Coast Guard has promulgated safety zones or special local regulations in accordance with 33 CFR Parts 100 and 165 for approximately 85% of the event areas in the past and has not received notice of any negative impact caused by any of the safety zones or special local regulations; and notifications will be made to the local maritime community through the Local Notice to Mariners and Broadcast Notice to Mariners well in advance of the events. If the event does not have a date listed, then exact dates and times of the enforcement period will be announced through a Notice of Enforcement in the **Federal Register**. No new or additional restrictions would be imposed on vessel traffic.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation,

eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a preliminary determination that this action appears to be one of a category of actions that do not individually or cumulatively have a significant effect on the human environment.

A preliminary environmental analysis checklist supporting this determination will be available in the docket where indicated under **ADDRESSES**. This proposed rule involves water activities including swimming events and fireworks displays. This rule appears to be categorically excluded, under figure 2–1, paragraph (34)(g) [Safety Zones] and (34)(h) [Special Local Regulations] of the Instruction.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

3. The authority citation for Part 165 continues to read as follows:

Authority: 33 U.S.C. 1226, 1231; 46 U.S.C. Chapter 701, 3306, 3703; 33 CFR 1.05–1, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

4. Revise § 165.171 to read as follows:

§ 165.171 Safety zones for fireworks displays and swim events held in Coast Guard sector Northern New England Captain of the Port Zone.

The Coast Guard is establishing safety zones for the fireworks displays listed in the table to this section (Table to § 165.171). These regulations will be enforced for the duration of each event, on or about the dates indicated in the Table to § 165.171. Mariners should

consult their Local Notice to Mariners to remain apprised of the specific calendar date upon which the listed event falls for each calendar year and other specific information concerning the event. First Coast Guard District Local Notice to Mariners can be found at: <http://www.navcen.uscg.gov/>. The Sector Northern New England Marine Events schedule can also be viewed electronically at

www.homeport.uscg.mil. Although listed in the Code of Federal Regulations, sponsors of events listed in the Table to § 165.171 shall submit an application each year in accordance with 33 CFR 100.15.

(a) The Coast Guard may patrol each event area under the direction of a designated Coast Guard Patrol Commander. The Patrol Commander may be contacted on Channel 16 VHF-FM (156.8 MHz) by the call sign "PATCOM." The "official patrol vessels" may consist of any Coast Guard, Coast Guard Auxiliary, State, or local law enforcement vessels assigned or approved by the Captain of the Port, Sector Northern New England.

(b) Vessels may not transit the regulated areas without Patrol

Commander approval. Vessels permitted to transit must operate at a no wake speed, in a manner which will not endanger participants or other crafts in the event.

(c) Spectators or other vessels shall not anchor, block, loiter, or impede the movement of event participants or official patrol vessels in the regulated areas during the effective dates and times, or dates and times as modified through the Local Notice to Mariners, unless authorized by an official patrol vessel.

(d) The Patrol Commander may control the movement of all vessels in the regulated area. When hailed or signaled by an official patrol vessel, a vessel shall come to an immediate stop and comply with the lawful directions

issued. Failure to comply with a lawful direction may result in expulsion from the area, citation for failure to comply, or both.

(e) The Patrol Commander may delay or terminate any event in this subpart at any time to assure safety. Such action may be justified as a result of weather, traffic density, spectator operation or participant behavior.

(f) For all swim events listed, vessels not associated with the event shall maintain a separation zone of 200 feet from participating swimmers.

(g) For all fireworks displays listed below, the regulated area is that area of navigable waters within a 350 yard radius of the launch platform or launch site for each fireworks display.
