The FCC, working in conjunction with the U.S. Customs Service is responsible for the regulation of both authorized radio services and devices that can cause interference. FCC Form 740 must be completed for each radio frequency device which is imported into the United States, and is used to keep

non-compliant devices from being distributed to the general public, thereby reducing the potential for harmful interference being caused to authorized communications. FCC Form 740 is submitted to the U.S. Customs Service and Border Patrol electronically or in a few cases paper format. The FCC Form 740 is not submitted to the Federal Communications Commission. When a violation is discovered, the FCC can issue a fine. If a product is suspected of illegal entry, the FCC works with the U.S. Customs Service to resolve the issue.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501—3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that

does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before April 15, 2013. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Judith B. Herman, Federal Communications Commission, via the Internet at Judith-b.herman@fcc.gov. To submit your PRA comments by email send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: Judith B. Herman, Office of Managing Director, (202) 418-0214.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Comprehensive Market Data Collection for Interstate Special Access Services, FCC 123-153.

Form Number: N/A.

Type of Review: New collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 6,387

respondents; 6,387 responses.

Estimated Time per Response: 134 hours (average).

Frequency of Response: One time reporting requirement and recordkeeping requirement.

Obligation to Respond: Mandatory. Statutory authority for this information collection is contained in 47 U.S.C. sections 151, 154, 201, 202, 218 and 706 of the Communications Act of 1934, as amended.

Total Annual Burden: 856,614 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission adopted two orders to protect proprietary and confidential information in this proceeding. The *Modified Protective Order* protects respondents against public disclosure of proprietary and commercially sensitive information. Such information is marked "confidential," is redacted from public documents, and may only be disclosed to counsel (either in-house or outside) or experts and their employees who comply with the procedures in the *Modified Protective Order*. Under the *Modified Protective Order*, disclosure is limited to counsel or experts and their employees that are not involved in competitive decision-making, *i.e.*, do not participate in any of the client's business decisions made in light of information about a competitor.

In response to requests from interested parties, the Bureau adopted a

Second Protective Order, which provides for more stringent protection of information deemed “highly confidential.” As opposed to the confidential data covered by the *Modified Protective Order*, the *Second Protective Order*, documents—or portions thereof—are eligible for highly confidential treatment only if they fall into one of eight categories of information designated as “highly confidential” by the Bureau.

Needs and Uses: The Commission will submit this new information collection to the Office of Management and Budget (OMB) for approval after this comment period. In a December 2012 Report and Order, FCC 12–153, the Commission initiated a comprehensive special access data collection and specified the nature of the data to be collected and the scope of respondents. In conjunction with the market analysis proposed by the Commission in a December 2012 Further Notice of Proposed Rulemaking, FCC 12–153, the data, information and documents acquired through this new collection will aid the Commission in conducting a comprehensive evaluation of competition in the special access market and updating its rules for pricing flexibility for special access services.

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice; request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens and as required by the Paperwork Reduction Act of 1995, Public Law 104–13, the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s burden estimate; ways to enhance the

quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Persons wishing to comment on this information collection should submit comments April 15, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Nicolas A. Fraser, Office of Management and Budget (OMB), via fax at 202–395–5167, or via the Internet at Nicholas_A.Fraser@omb.eop.gov, and to Judith-B.Herman@fcc.gov, Federal Communications Commission (FCC). SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1129.

Title: Broadband Speed Test and Unavailability Registry.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals and households.

Number of Respondents: 7,300 respondents; 7,300 responses.

Estimated Time per Response: .017 hours.

Frequency of Response: On occasion reporting requirement, and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in Public Law 111–5, American Reinvestment and Recovery Act of 2009; Public Law 110–385, Broadband Data Improvement Act of 2008, 47 U.S.C. 103(c)(1).

Total Annual Burden: 124 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: Yes. The Commission will retain the street and IP

address information obtained from participants in the speed test. The Commission will not release individual personally identifiable information (PII) to the public. As noted in the supporting statement, page 2, the FCC is committed to protecting the PII that is being collected, stored, maintained, and used as part of the Broadband Plan and the Broadband Map and the related impact studies and filing processes.

Nature and Extent of Confidentiality:

The Commission is not requesting that respondents submit confidential information to the Commission. If the Commission requests that respondents submit information which respondents believe is confidential, respondents may request confidential treatment of such information pursuant to section 0.459 of the Commission’s rules, 47 CFR 0.459. The FCC has a system of records, FCC/OSP–1, “Broadband Dead Zone Report and Consumer Broadband Test,” to cover the collection, purpose(s), storage, safeguards, and disposal of the personally identifiable information (PII) that individuals may submit to enable these US residents to voluntarily report the unavailability of broadband service at the household street address level and to test the speed and quality of their broadband service and to provide the Commission with unique data on household availability of broadband and on relative broadband speeds.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget (OMB) after this comment period to obtain the full, three year clearance from them. The Commission is seeking an extension for these requirements. There is no change in the Commission’s previous burden estimates.

The Broadband Data Improvement Act of 2008, Public Law 110–385, Stat 4096, section 103(c)(1) directs the Commission to collect information on the types of technology used to provide broadband to large businesses and small businesses, the price of such services, actual data transmission speeds and the reasons for non-adoption of broadband service. Additionally, the FCC in the *2008 Broadband Data Gather Order* (23 FCC Rcd at 9699, para. 18, 73 FR 37869, 73 FR 37911), instructs the Commission to “design and implement a voluntary system that households may use to report availability and speed of broadband Internet access service at their premises.”

The purpose of this collection is to enable residents of the United States to voluntarily report the unavailability of broadband service at the household street address level and to test the speed
