#### FEDERAL RESERVE SYSTEM

#### 12 CFR Part 201

[Regulation A]

## Extensions of Credit by Federal Reserve Banks; Change in Discount Rate

**AGENCY:** Board of Governors of the Federal Reserve System.

**ACTION:** Final rule.

**SUMMARY:** The Board of Governors has amended its Regulation A on Extensions of Credit by Federal Reserve Banks to reflect its approval of an increase in the basic discount rate at each Federal Reserve Bank. The Board acted on requests submitted by the Boards of Directors of the twelve Federal Reserve Banks.

**DATES:** The amendments to part 201 (Regulation A) were effective March 21, 2000. The rate changes for adjustment credit were effective on the dates specified in 12 CFR 201.51.

## FOR FURTHER INFORMATION CONTACT:

Jennifer J. Johnson, Secretary of the Board, at (202) 452–3259; for users of Telecommunications Device for the Deaf (TDD), contact Janice Simms, at (202) 872–4984, Board of Governors of the Federal Reserve System, 20th and C Streets NW., Washington, DC 20551.

**SUPPLEMENTARY INFORMATION:** Pursuant to the authority of sections 10(b), 13, 14, 19, et al., of the Federal Reserve Act, the Board has amended its Regulation A (12 CFR part 201) to incorporate changes in discount rates on Federal Reserve Bank extensions of credit. The discount rates are the interest rates charged to depository institutions when they borrow from their district Reserve Banks.

The "basic discount rate" is a fixed rate charged by Reserve Banks for adjustment credit and, at the Reserve Banks' discretion, for extended credit. In increasing the basic discount rate from 5.25 percent to 5.5 percent, the

Board acted on requests submitted by the Boards of Directors of the twelve Federal Reserve Banks. The new rates were effective on the dates specified below. The 25-basis-point increase in the discount rate was associated with a similar increase in the federal funds rate approved by the Federal Open Market Committee and announced at the same time.

The Board and the Reserve Banks remain concerned that increases in demand will continue to exceed the growth in potential supply, which could foster inflationary imbalances that would undermine the economy's record economic expansion. Against the background of their long-run goals of price stability and sustainable economic growth and of the information currently available, the Board and the Reserve Banks believe the risks are weighted mainly toward conditions that may generate heightened inflation pressures in the foreseeable future.

## **Regulatory Flexibility Act Certification**

Pursuant to section 605(b) of the Regulatory Flexibility Act (5 U.S.C. 605(b)), the Board certifies that the change in the basic discount rate will not have a significant adverse economic impact on a substantial number of small entities. The rule does not impose any additional requirements on entities affected by the regulation.

#### **Administrative Procedure Act**

The provisions of 5 U.S.C. 553(b) relating to notice and public participation were not followed in connection with the adoption of the amendment because the Board for good cause finds that delaying the change in the basic discount rate in order to allow notice and public comment on the change is impracticable, unnecessary, and contrary to the public interest in fostering price stability and sustainable economic growth.

The provisions of 5 U.S.C. 553(d) that prescribe 30 days prior notice of the effective date of a rule have not been followed because section 553(d) provides that such prior notice is not necessary whenever there is good cause for finding that such notice is contrary to the public interest. As previously stated, the Board determined that delaying the changes in the basic discount rate is contrary to the public interest.
