

of death from lighter malfunction is about 2.2 deaths per billion lighters. The estimated risk of injury is about 1.1 injuries per million lighters. Moreover, the incident data do not provide sufficient information to determine whether the lighters involved in these incidents conform to ASTM F-400. Thus, it is unclear whether mandating the voluntary standard would actually reduce incidents.

B. The Public Meeting

The purpose of the public meeting is to provide a forum for oral presentations on the cigarette lighter petition and the CPSC staff's briefing package.

Participation in the meeting is open. See the **DATES** section of this notice for information on making requests to give oral presentations at the meeting and on making written submissions.

Dated: August 11, 2004.

Todd A. Stevenson,

Secretary, Consumer Product Safety Commission.
