

to the Department's regulations are to 19 CFR Part 351 (1999).

Background

On March 8, 2001, the Department published in the **Federal Register** (66 FR 13893) the Preliminary Results of this review. We invited parties to comment on our *Preliminary Results*. We received notification on March 19, 2001, from Atlas, the only respondent in this segment of the proceeding, that it did not intend to submit either case or rebuttal briefs. In addition, we did not receive any comments from any other party.

In the *Preliminary Results*, we found the dumping margin for Atlas to be 6.56 percent. We have now completed the administrative review in accordance with section 751 of the Act and find the rate to be 6.66 percent, due to the fact that Atlas had filed revised home market sales, U.S. sales, and cost of production databases on February 9, 2001, which the Department inadvertently failed to use in calculating its preliminary results of review.

Scope of the Review

The products covered by this review include shipments of OCTG from Canada. This includes American Petroleum Institute (API) specification OCTG and all other pipe with the following characteristics except entries which the Department determined through its end-use certification procedure were not used in OCTG applications: Length of at least 16 feet; outside diameter of standard sizes published in the API or proprietary specifications for OCTG with tolerances of plus $\frac{1}{8}$ inch for diameters less than or equal to $8\frac{5}{8}$ inches and plus $\frac{1}{4}$ inch for diameters greater than $8\frac{5}{8}$ inches, minimum wall thickness as identified for a given outer diameter as published in the API or proprietary specifications for OCTG; a minimum of 40,000 PSI yield strength and a minimum 60,000 PSI tensile strength; and if with seams, must be electric resistance welded. Furthermore, imports covered by this review include OCTG with non-standard size wall thickness greater than the minimum identified for a given outer diameter as published in the API or proprietary specifications for OCTG, with surface scabs or slivers, irregularly cut ends, ID or OD weld flash, or open seams; OCTG may be bent, flattened or oval, and may lack certification because the pipe has not been mechanically tested or has failed those tests. This merchandise is currently classifiable under the Harmonized Tariff Schedules (HTS) item numbers 7304.20, 7305.20, and 7306.20. The HTS item numbers are

provided for convenience and U.S. Customs purposes. The written description remains dispositive.

Analysis of Comments Received

We did not receive any interested party comments on our Preliminary Results. Therefore, there is no Issues and Decision Memorandum for the final results of review.

Final Results of Review

We have determined that the only change to our analysis for purposes of these final results are the use of the revised home market sales, U.S. sales, and cost of production databases filed by Atlas on February 9, 2001. As a result of this review, we determine that a 6.66 percent dumping margin exists for Atlas for the period June 1, 1999, through December 31, 1999.

Assessment

The Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. We have calculated an importer-specific duty assessment rate based on the ratio of the total amount of antidumping duties calculated for the importer-specific sales to the total entered value of the same sales. Atlas reported entered value by subtracting discounts, freight, brokerage and handling costs from the reported U.S. price. Since the importer-specific rate is above de minimis, we will instruct Customs to assess duties on the importer's entries of subject merchandise. The Department will issue appraisement instructions directly to Customs.

Pursuant to section 751(d)(2) of the Act, on August 22, 2000, the Department revoked the antidumping duty order on OCTG from Canada, effective January 1, 2000 (65 FR 50954). Therefore, we instructed Customs to liquidate all entries of subject merchandise made on or after January 1, 2000, without regard to antidumping duties. As a result of this revocation, we will not issue cash deposit instructions to Customs based on the results of this review.

Notification

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent

assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with sections 751(a)(1) and 777(i)(1).

Dated: June 18, 2001.

Faryar Shirzad,

Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

Technology Administration

[Docket No.: 01613156-1156-01]

National Medal of Technology's Call for Nominations for the Year 2002

AGENCY: Technology Administration, U.S. Department of Commerce.

ACTION: Announcement of the National Medal of Technology's Call for Nominations for the year 2002.

SUMMARY: The Department of Commerce's Technology Administration is accepting nominations for its National Medal of Technology (NMT) award program for the year 2002.

Established by Congress in 1980, the President of the United States awards the National Medal of Technology annually to our Nation's leading innovators. If you know of a candidate who has made an outstanding contribution in technology, send for a nomination packet now.

DATES: The deadline for submission of an application is August 30, 2001.

ADDRESSES: The NMT Nomination Applications for the year 2002 can be obtained from the NMT program office, Technology Administration, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Room 4226, Washington, DC 20230. The applications are also available by visiting the NMT website at www.ta.doc.gov/medal or by faxing the office at 202/501-8153. Please return the completed application to Mildred

Porter, Director of the NMT program, at the address above.

FOR FURTHER INFORMATION CONTACT:
Mildred Porter, Director, 202-482-5572.

SUPPLEMENTARY INFORMATION: The National Medal of Technology is the highest honor awarded by the President of the United States to America's leading innovators. Enacted by Congress in 1980, the Medal of Technology was first awarded in 1985. The Medal is given annually to individuals, teams, or companies for accomplishments in the innovation, development, commercialization, and management of technology, as evidenced by the establishment of new or significantly improved products, processes, or services.

The primary purpose of the National Medal of Technology is to recognize technological innovators who have made lasting contributions to enhancing America's competitiveness and standard of living. The Medal highlights the national importance of fostering technological innovation based upon solid science, resulting in commercially successful products and services.

The Selection Process

A distinguished, independent committee evaluates the merits of all candidates nominated through an open, competitive solicitation process. The U.S. Department of Commerce's Technology Administration agency is responsible for administering the National Medal of Technology. Committee recommendations are forwarded to the Secretary of Commerce who then makes recommendations to the President for final decision.

The Awards Ceremony and Events

Each year the President in a joint White House ceremony with the National Medal of Science presents the National Medal of Technology awards. (The National Science Foundation administers the National Medal of Science award program.) The Medal laureates are celebrated at a dinner gala hosted by the National Science and Technology Medals Foundation along with other events planned around the White House ceremony. We invite you to look at our web site (www.ta.doc.gov/medal) for the historical archives, including photos and videos of the most recent laureates, and a listing of the 131 winners who have received this prestigious medal. The Medal winners serve as ambassadors to the next generation of technologists.

Dated: June 12, 2001.

Bruce Mehlman,

*Assistant Secretary for Technology Policy,
Technology Administration.*
