SUPPLEMENTARY INFORMATION:

Abstract: The U.S. Institute is a federal program established by Congress to assist parties in resolving environmental, natural resource, and public lands conflicts. The U.S. Institute serves as an impartial, non-partisan institution, and accomplishes much of its work by partnering, contracting with, or referral to, experienced practitioners. In addition, the U.S. Institute maintains the National Roster of Environmental Dispute Resolution and Consensus Building Professionals (National ECR Roster or roster). The Application for the National Roster of Environmental Dispute Resolution and Consensus Building Professionals (application) compiles data available from the resumes of environmental neutrals (mediators, facilitators, etc.) into a format that is standardized for efficient and fair eligibility review, database searches, and retrievals. The roster, the application and the related entry criteria, were developed collaboratively and with the support of the Environmental Protection Agency. A professional needs complete the application form one time. Once an application is approved, the roster member has access to update information online. The proposed collection is necessary to support ongoing maintenance of the roster and a continuous, open application process. The application and supplementary information are available from the U.S. Institute's Web site. From <http://www.ecr.gov/Resources/Roster/Roster.aspx>, choose the right-hand navigation bar link to "Roster Application: Info and Log In".

Burden Statement: Burden for potentially affected public: environmental dispute resolution and consensus building professionals (new respondents); existing roster members (for updating).

Proposed Frequency of Response: One initial, with voluntary updates approximately once per year.

Annual Number of Respondents: 30 (new response); 125 (update).

Time per Respondent: 2.5 hours (new response); 15 minutes (update).

Total Annual Hours Burden: 106 (new response and update combined).

Annual Cost Burden: \$3,359 (new response); \$1,399 (update).

Total Annual Cost Burden: \$4,758 (new response and update combined); labor costs exclusively; no capital or start-up costs.

Changes in the Estimates: There are no changes in the labor hours in this ICR compared to the previous ICR. The reduction in cost figures from the previous ICR are due to use of current

Bureau of Labor Statistics reports for valuing time (civilian workers category of "professionals and related occupations": \$44.78 per hour) rather than estimated contractor rates.
