

M may provide for an additional phased retirement benefit to be offered to E for 2008. The maximum increase would be for the phased retirement benefit paid to E during 2009 to be increased based on a phased retirement accrued benefit equal to 75% of E's accrued benefit (1,500 divided by 2,000). Thus, the amount being paid to E would be increased, effective January 1, 2008, based on the excess of 75% of E's total accrued benefit on December 31, 2007, over E's original phased retirement accrued benefit of \$12,750. Employee E would have the right to elect, with spousal consent, any annuity form offered under Plan X (with the actuarial adjustment for time of commencement and form of payment to be based on the age of E and any contingent beneficiary (and E's service, if applicable) on June 1, 2008), which would be in addition to the previously elected joint and 50% survivor annuity payable as E's original phased retirement benefit. When E retires fully on July 1, 2009, Employee E's total accrued benefit as of July 1, 2009 would be offset by (A) E's original phased retirement accrued benefit plus (B) the phased retirement accrued benefit for which additional phased retirement benefits were payable beginning in 2008.

(g) *Effective date.* The rules of this section apply to plan years beginning on or after the date of publication of the Treasury decision adopting these rules as final regulations in the **Federal Register**.

Deputy Commissioner for Services and Enforcement.

BILLING CODE 4830-01-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[R05-OAR-2004-WI-0001; FRL-7829-5]

Approval and Promulgation of Implementation Plans; Wisconsin

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve revisions to Wisconsin's State Implementation Plan (SIP) regarding the control of nitrogen oxide (NO_x) emissions. On August 29, 2003, the EPA published a final rulemaking approving the emission averaging program for existing sources subject to the state's rule limiting NO_x emissions in southeast Wisconsin. By its submittal dated May 25, 2004, the Wisconsin Department of Natural Resources requested that EPA approve modifications to existing requirements regarding the control of NO_x emissions in the Wisconsin SIP. The SIP revisions

modify language to clarify which sources are eligible to participate in the NO_x emission averaging program. In addition, the revision creates a separate categorical emission limit for new combustion turbines burning biologically derived gaseous fuels. The request is approvable because it meets the requirements of the Clean Air Act. Wisconsin held a public hearing on the submittal on August 6, 2003.

In the final rules section of this **Federal Register**, EPA is approving the SIP revision as a direct final rule without prior proposal, because EPA views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and address all public comments received in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before December 10, 2004.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does This Action Apply to Me?

This action is rulemaking on two revisions to the Wisconsin SIP for the control of NO_x emissions from stationary sources as required by rule NR 428. The rule applies to existing sources in eight of the counties in the Milwaukee-Racine ozone nonattainment area (Kenosha, Manitowoc, Milwaukee, Ozaukee, Racine, Sheboygan, Washington, and Waukesha counties), and to new sources in six of the eight counties (Kenosha, Milwaukee, Ozaukee, Racine, Washington, and Waukesha).

One revision modifies language to clarify which units are eligible for demonstrating compliance through emissions averaging. The emissions averaging provisions apply only to existing electric utility boilers in the Milwaukee-Racine ozone nonattainment area (Kenosha, Manitowoc, Milwaukee, Ozaukee, Racine, Sheboygan, Washington, and Waukesha counties). The second revision creates a separate NO_x categorical emission limit for newly installed combustion turbines burning biologically derived gaseous fuel. Sources affected by the new categorical NO_x limit are landfill operations, wastewater treatment plants and digester facilities specifically designed to generate gaseous fuel. The new NO_x categorical limit for newly installed combustion turbines burning biologically derived fuel applies only to new sources located in Kenosha, Milwaukee, Ozaukee, Racine, Washington, and Waukesha counties in southeastern Wisconsin. The revisions have been adopted into the State administrative code and became effective on January 1, 2004.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through EDOCKET, regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the

disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

a. Identify the rulemaking by docket number and other identifying information (subject heading, Federal Register date and page number).

b. Follow directions—The agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

c. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

d. Describe any assumptions and provide any technical information and/or data that you used.

e. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

f. Provide specific examples to illustrate your concerns, and suggest alternatives.

g. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

h. Make sure to submit your comments by the comment period deadline identified.

II. Additional Information

For additional information, see the Direct Final Rule which is located in the Rules section of this **Federal Register**. Copies of the request and the EPA's analysis are available electronically at Regional Materials in Edocket (RME) or in hard copy at the above address. (Please telephone Charles Hatten at (312) 886-6031 before visiting the Region 5 Office.)
