II. Background

What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. In 2006, EPA issued a RED for permethrin under section 4(g)(2)(A) of FIFRA. In response to a notice of availability published in the **Federal Register** on June 28, 2006 (71 FR 36788) (FRL-8074-5), the Agency received substantive comments from the technical registrant and other commentors. The Agency's response to these comments is available for viewing in the public docket. The amended permethrin RED reflects changes resulting from these comments as well as subsequent efforts by the Agency to mitigate overall risk.

III. What Does this Amendment Do?

The amended permethrin RED reflects revisions resulting from Agency consideration of public comments to the RED and efforts to develop standardized label language for certain applications. The label table incorporated into the permethrin RED amendment includes modifications which provide mandatory label language for canine spot-on
