(4) on page 42225, the grant category beginning in the second column under the heading "Healthy Start Initiative Eliminating Disparities in Perinatal Health Border Health (CFDA #93.926N)", is amended to: (a) further restrict eligibility to applicants who will establish community-based consortia of individuals and organizations (including State Title V agencies, consumers of project services, public health departments, hospitals, community health centers, and other significant sources of health care services) that are appropriate for participation. Eligibility remains open to any public or private entity, including an Indian tribe or tribal organization (as defined at 25 U.S.C. 450b)); (b) restrict project areas to those which target a geographic area with high annual rates of infant mortality within 62 miles from the Mexican border in a particular State, i.e., no statewide programs will be funded; and (c) require that grantees coordinate their services and activities with State Title V agencies. Funding priorities and/or preferences will be given only to applicants who were recipients of Healthy Start community-based grants awarded prior to July 2000 (details will be provided in the application guidance). There will be no special considerations. The estimated amount of this competition will be up to \$1,500,000. It is anticipated that two awards will be made.

The amendments above conform to changes made in the Healthy Start program by Title XV of Public Law 106-310.
