Notice of Opportunity for Public Comment on the Dietary Supplement Label Database

SUMMARY: The Office of Dietary Supplements (ODS) at the National Institutes of Health, in partnership with the National Library of Medicine (NLM), has developed a Dietary Supplement Label Database (DSLDD) that is compiling all information from the labels of dietary supplements marketed in the United States. ODS welcomes comments about features to add and functionality improvements to make so the DSLDD may become a more useful tool to users.

A federal stakeholder panel for the DSLDD will consider all comments received. The ODS requests input from academic researchers, government agencies, the dietary supplement industry, and other interested parties, including consumers. The DSLDD can be accessed online at <http://dsld.nlm.nih.gov>.

DATES: To ensure full consideration, all comments must be received by 11:59 p.m. EST, November 27, 2015.

ADDRESSES: Interested individuals and organizations should submit their responses to ODS@nih.gov.

FOR FURTHER INFORMATION CONTACT:

Richard Bailen MBA, MHA., Office of Dietary Supplements, National Institutes of Health, 6100 Executive Boulevard, Room 3B01, Bethesda, MD 20892-7517, Phone: 301-435-2920, Fax: 301-480-1845, Email: ODS@nih.gov.

SUPPLEMENTARY INFORMATION:

The DSLDD is a free resource that captures all information present on dietary supplement labels as provided by the seller, including contents, ingredient amounts, and any health-related product statements, claims, and cautions. It also provides a downloadable photo of each label. Users can search for and organize this information in various ways. Research scientists, for example, could use the DSLDD to determine total nutrient intakes from food and supplements in populations they study. Health care providers can learn the content of products their patients are taking. Consumers might use the DSLDD to search for and compare products of interest.

The DSLDD currently contains 50,000 labels, and it is expected to grow rapidly over the next three years to include most of the estimated 75,000+ dietary supplement products sold to American consumers. The DSLDD is updated regularly to include any formulation changes and label information in a product. It also includes the labels of products that have been discontinued and are no longer sold. More information about the DSLDD and its current capabilities is available at

<http://www.dsld.nlm.nih.gov> and at Dwyer *et al.*, 2014.¹

ODS would like to receive ideas and suggestions for how the DSLDD might evolve. What features might be added, improved, or enhanced—for example, in capabilities related to search, sorting, organization, and downloading of information—that would make it a more valuable tool for users?

Dated: October 23, 2015.

You may review the information collection request online at <http://www.reginfo.gov>. Follow the instructions to review Department of the Interior collections under review by OMB.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Office of Indian Energy and Economic Development (IEED) is seeking renewal of the approval for the information collection conducted under 25 CFR part 103, implementing the Loan Guarantee, Insurance, and Interest Subsidy Program, established by 25 U.S.C. 1451 *et seq.* The information collection allows IEED to determine the eligibility and credit-worthiness of respondents and loans and otherwise ensure compliance with Program requirements. This information collection includes the use of several forms. A response is required to obtain and/or retain a benefit.

II. Request for Comments

On July 14, 2015, IEED published a notice announcing the renewal of this information collection and provided a 60-day comment period in the **Federal Register** (80 FR 41054). There were no comments received in response to this notice.

The IEED requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it displays a valid OMB Control Number.
