The CCCF is responsible for (a) Establishing or endorsing permitted maximum levels and where necessary, revising existing guideline

levels, for contaminants and naturally occurring toxicants in food and feed;

(b) Preparing priority lists of contaminants and naturally occurring toxicants for risk assessment by the joint FAO/WHO Expert Committee on Food Additives (JEFCA).

(c) Considering and elaborating methods of analysis and sampling for the determination of contaminants and naturally occurring toxicants in food and feed;

(d) Considering and elaborating standards or codes of practice for related subjects; and
