SUPPLEMENTARY INFORMATION:

I. Description of Proposed Systems of Records

The HRIS SSC is a Department of Veterans Affairs Human Capital information system that has been acquired from a private-sector provider through an Interagency Agreement with the General Services Administration (GSA). The HRIS SSC is considered a major application and will provide personnel action and benefits processing for all of VA's 320,000+ employees, and approximately 100,000+ clinical trainees. The system will not be used for managing contractor or volunteer elements of the VA labor force.

The HRIS SSC contains VA position and employee data, such as name, compensation data, and benefits information. [Note: name and compensation information is subject to disclosure under the Freedom of Information Act, and is routinely provided by the Office of Personnel Management to the media on request.] Additional information includes Social Security Number, VA Employee Identification Number, and voluntarily self-reported Race, National Original and Ethnicity data. Such data are considered to be Personally Identifiable Information (PII), and are the most sensitive information elements included

in the system. There is no Protected Health Information (PHI) stored in the system.

II. Proposed Routine Use of Data in the System

Records in this system have various uses, including screening qualifications of employees; determining status eligibility, and rights and benefits under pertinent laws and regulations governing Federal employment; computing length of service; and other information needed to provide personnel services.

1. All of the information contained in this system of records is used for official purposes of VA; all such uses of information are compatible with the purposes for which the information was collected.

2. To produce and maintain the official personnel records, including reports and statistical data, of VA employees for use by Federal, State and local agencies and organizations authorized by law or regulation to have access to such information. These records may be disclosed as part of an ongoing matching program to accomplish these purposes. This routine use does not authorize the disclosure of information that must be disclosed under the criteria contained in 5 U.S.C. 552a (b) (7), (8), and (11).

3. To transfer personnel data to the Office of Personnel Management (OPM) in order to provide OPM with a readily accessible major data source for meeting the work force information needs of OPM, national planning agencies, the Congress, the White House and the public.

4. VA, on its own initiative, may disclose any information in this system which is relevant to a suspected violation or reasonable imminent violation of law, whether civil, criminal, or regulatory in nature, and whether arising by general or program statute or by regulation, rule, or order issued pursuant thereto, to any Federal, foreign, State, tribal or local government agency charged with responsibility of investigating or prosecuting such violations, or charged with enforcing or implementing the statute, rule, regulation, or order.

5. A record from this system of records may be disclosed as a routine use to a Federal, State or local agency, or to a non-governmental organization maintaining civil, criminal or other relevant information, such as current licenses, registration or certification, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the use of an individual as a consultant,

attending or to provide fee basis health care, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefits. These records may also be disclosed as part of an ongoing computer matching program to accomplish these purposes.

6. A record from this system of records may be disclosed to a Federal, State or local agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the conducting of a security or suitability investigation of an individual, the letting of a contract or the issuance of a license, grant or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

7. The record of an individual who is covered by this system may be disclosed to a Member of Congress or a staff person acting for a Member, when the Member or staff person requests the record on behalf of, and at the written request of, the individual.

8. Information and records in this system may be disclosed to the National Archives and Records Administration (NARA) and GSA in records management inspections conducted under the authority of 44 U.S.C. 2906 and the implementing regulations.

9. To transfer human resources and payroll information to complete payroll Checks and direct deposit/electronic funds transfer (DD/EFT), bond deductions, and withholding taxes to the Defense Finance Accounting System (DFAS) to effect delivery of salary payments to VA employees.

10. Transfer payroll information to the Social Security Administration in order to credit quarterly posting for social security.

11. Relevant information from this system of records, including the nature and amount of a financial obligation may be disclosed as a routine use in order to assist VA in the collection of unpaid financial obligations owed to VA, to a debtor's employing agency or commanding officer. This purpose is consistent with the Governmentwide debt collection standards set forth at 31 U.S.C. Chapter 37, subchapters I and II, 31 CFR parts 900–904, and VA regulations 38 CFR 1.900–1.954.

12. To provide State and local taxing authorities with employee names, home addresses, social security numbers, gross compensation paid for a given period, taxes withheld for the benefit of the recipient jurisdiction or other jurisdictions, according to the provisions of State and/or local law.

13. Records from this system of records may be disclosed to a Federal, State or local government agency or licensing board and/or to the Federation of State Medical Boards or a similar nongovernment entity. These entities maintain records concerning an individual's employment or practice histories or concerning the issuance, retention or revocation of licenses, certifications, or registration necessary to practice an occupation, profession or specialty. Disclosures may be made in order for the agency to obtain information determined relevant to an agency decision concerning the hiring, retention or termination of an employee. Disclosures may also be made to inform a Federal Agency or licensing boards or the appropriate nongovernment entities about the health care practices of a terminated, resigned or retired health care employee whose professional health care activity so significantly failed to conform to generally accepted standards of professional medical practice as to raise reasonable concern for the health and safety of patients. These records may also be disclosed as part of an ongoing computer matching program to accomplish these purposes.

14. Any information in this system of records may be disclosed to any State, local, or foreign civil or criminal law enforcement governmental agency or instrumentality charged under applicable law with the protection of the public health or safety for the purpose of protecting public health or safety if qualified representatives of such agency or instrumentality has made a written request that such information be provided in order to meet a statutory reporting requirement.

15. Identifying information in this system, including name, address, social security number and other information as is reasonably necessary to identify such individual, may be disclosed to the National Practitioner Data Bank at the time of hiring and/or clinical privileging/re-privileging of health care practitioners, and other times as deemed necessary by VA in order for VA to obtain information to make a decision concerning the hiring, privileging/re-privileging, retention or termination of the applicant or employee.

16. Relevant information from this system of records may be disclosed to the National Practitioner Data Bank and/or State Licensing Board in the State(s) in which a practitioner is licensed, in which the VA facility is located, and/or in which an act or omission occurred upon which a medical malpractice claim was based when VA reports information concerning: (1) Any payment for the benefit of a physician,

dentist, or other licensed health care practitioner which was made as the result of a settlement or judgment of a claim of medical malpractice if an appropriate determination is made in accordance with agency policy that payment was related to substandard care, professional incompetence or professional misconduct on the part of the individual; (2) a final decision which relates to possible incompetence or improper professional conduct that adversely affects the clinical privileges of a physician or other licensed health care practitioner for a period longer than 30 days; or (3) the acceptance of the surrender of clinical privileges or any restriction of such privileges by a physician or other licensed health care practitioners either while under investigation by the health care entity relating to possible incompetence or improper professional misconduct, or in return for not conducting such an investigation or proceeding. These records may also be disclosed as part of a computer matching program to accomplish these purposes.

17. Relevant information from this system of records concerning residents and interns employed at the VA Medical Centers, including names, social security numbers, occupational titles, and dates of service, may be disclosed to the Health Care Financing Administration as part of an ongoing computer matching program. The purpose of this computer matching program is to help assure that no intern or resident is counted as more than a full-time equivalent in accordance with program regulations governing Medicare education costs.

18. Relevant information from this system of records may be disclosed to individuals, organizations, private or public agencies or other agencies with whom VA has a contract or agreement or where there is a subcontract to perform services as VA may deem practicable for the purpose of laws administered by VA, in order for the contractor or subcontractor to perform the services of the contract or agreement. In accordance with the provisions of the contract or agreement, the contractor may disclose relevant information from this system of records to a third party. This includes the situation where relevant information may be disclosed to a third party upon the presentation or submission to the contractor by that third party of specific authorization or access data (e.g., an authorization code or number), which is obtained from VA or the VA contractor only by the individual employee to whom the information pertains. The employee's release of the specific

authorization or access data to a third party indicates the employee's authorization for the disclosure of such information to that third party.

19. Identifying information in this system, including names, social security numbers, home addresses, dates of birth, dates of hire, quarterly earnings, employer identifying information, and State of hire of employees may be disclosed to the Office of Child Support Enforcement, Administration for Children and Families, Department of Health and Human Services Federal Parent Locator System (FPLS) for the purpose of locating individuals to establish paternity, establishing and modifying orders of child support, identifying sources of income, and for other child support enforcement actions as required by the Personal Responsibility and Work Opportunity Reconciliation Act (Welfare Reform Law, Pub. The purpose of this computer-matching program will be to determine if Federal employees have been improperly drawing State unemployment benefit payments. These

payments are ultimately reimbursed to the State by the Federal Government.

33. VA may disclose from this system of records to the Department of Justice (DOJ), either on VA's initiative or in response to DOJ's request for information, after either VA or DOJ determines that such information is relevant to DOJ's representation of the United States or any of its components in legal proceedings before a court or adjudicative body, provided that, in each case, the agency also determines prior to disclosure that release of the records to DOJ is a use of the information contained in the records that is compatible with the purpose for which VA collected the records. VA, on its own initiative, may disclose records in this system of records in legal proceedings before a court or administrative body after determining that the disclosure of the records to the court or administrative body is a use of the information contained in the records that is compatible with the purpose for which VA collected the records.
