Applicant

Lorie Lopez plans to construct one single family residence on 0.757 acres platted as Lot 41, in the Circle D Estates Subdivision, Bastrop County, Texas. This action will eliminate less than one acre of habitat and result in an unquantifiable amount of indirect impact. The applicant proposes to compensate for this incidental take of the Houston Toad by donating \$1,500.00 to the National Fish and Wildlife Foundation for the specific purpose of land acquisition and management within Houston toad habitat, as identified by the Service.

Alternatives to this action were rejected because not developing the subject property with federally listed species present was not economically feasible and alteration of the project

design would not alter the level of impacts.
