

process is referred to as “scoping.” The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, we are requesting public comments on the scope of the issues that should be addressed in the EA. We will consider all comments received during scoping in the preparation of the EA.

Our independent analysis of the issues will be in the EA. Depending on the comments received during the scoping process, the EA may be published and mailed to federal, state, and local agencies; elected officials; environmental and public interest groups; other interested parties; affected landowners; Native American tribes; libraries, and newspapers; and the Commission’s official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission.

Currently Identified Environmental Issues

At this time no formal application has been filed with the FERC. For this project, the FERC staff has initiated its NEPA review prior to receiving the application. The purpose of the Commission’s Pre-Filing Process is to involve interested stakeholders early in project planning and to identify and resolve issues before an application is filed with the FERC.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the proposal. By becoming a commentor, your concerns will be addressed in the EA and considered by the Commission. You should focus on the potential environmental effects of the proposal, alternatives to the proposal (including alternative locations), and measures to avoid or lessen environmental impact. The more specific your comments, the more useful they will be. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your letter to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426;

- Reference Docket No. PF06–9–000 on the original and both copies.

- Mail your comments so that they will be received in Washington, DC on or before January 30, 2006.

We will include all comments that we receive within a reasonable time frame in our environmental analysis of the project. To expedite our receipt and consideration of your comments, the Commission strongly encourages electronic submission of any comments or interventions or protests to this proceeding. See Title 18 Code of Federal Regulations (CFR) 385.2001(a)(1)(iii) and the instructions on the Commission’s website at <http://www.ferc.gov> under the “e-Filing” link and the link to the User’s Guide. Title: General Administrative Requirements for Assistance Programs (Renewal).

Abstract: The information is collected from applicants/recipients of EPA assistance to monitor adherence to the programmatic and administrative requirements of the Agency's financial assistance program. It is used to make

awards, pay recipients, and collect information on how Federal funds are being spent. EPA needs this information to meet its Federal stewardship responsibilities. This ICR renewal requests authorization for the collection of information under EPA's General Regulation for Assistance Programs, which establishes minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). Recipients must respond to these information requests to obtain and/or retain a benefit (Federal funds). 40 CFR part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," includes the management requirements for potential grantees from non-profit organizations. 40 CFR part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," includes the management responsibilities for potential State and local government grantees. These regulations include only those provisions mandated by statute, required by OMB Circulars, or added by EPA to ensure sound and effective financial assistance management. The OMB 83-I Form associated with this ICR combines all of these requirements under OMB Control Number 2030-0020. The information required by these regulations will be used by EPA award officials to make assistance awards and assistance payments and to verify that the recipient is using Federal funds appropriately to comply with OMB Circulars A-21, A-87, A-102, A-110, A-122, A-128, and A-133, which set forth the pre-award, post-award, and after-the-grant requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 18 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and

disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Institutions of higher education, hospitals, and other not-for-profit institutions; State, local, and Indian tribal governments.

Estimated Number of Respondents: 6,105.

Frequency of Response: On occasion, quarterly, and annually.

Estimated Total Annual Hour Burden: 108,887.

Estimated Total Annual Cost:

\$4,852,000, includes \$0 annualized capital or O&M costs and \$4,852,000 annual labor costs.

Changes in the Estimates: There is a decrease of 67,682 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease has occurred for several reasons, and includes a program change decrease of 65,287 hours and an adjustment decrease of 2,395 hours. EPA removed five forms (EPA Forms: 5700-20A, 5700-20B, 5700-30, 5700-49 and 5700-52A) and added three forms ("Lobbying Cost Certificate for Indirect Costs," NCER Form 5, and NCER Form 3212). These programs changes resulted in an overall decrease of 65,287 hours. In addition EPA made several adjustments to its burden and respondent assumptions, which resulted in an overall decrease of 2,395 hours.

Dated: December 12, 2005.

Oscar Morales,

Director, Collection Strategies Division.
