

under the jurisdiction of the Bureau of Land Management are located with the project boundary. No Indian Tribal lands are located within the project boundary.

The proposed plan establishes the Public Service Company of Colorado's (project licensee) future management practices and guidelines for public recreation and private development at Electra Lake and the adjoining project lands. The proposed plan is intended to ensure that recreation use and private development at Electra Lake is consistent with hydroelectric operations, the terms and conditions of the project license, including the project's existing recreation plan; an existing lease agreement between the licensee and the Electra Sporting Club, a private recreation club; and all other applicable Federal, state, and local laws and regulations. The proposed plan contains provisions addressing existing and future private development, public recreation use and opportunities, and the preservation of natural resources, including scenic and environmental values, at Electra Lake and the adjoining project lands. The EA contains Commission staff's analysis of the potential environmental impacts of implementation of the proposed plan and concludes that the proposed action would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the web at <http://www.ferc.gov> using the "RIMS" link—select "P-400" and follow the instructions (call 202-208-2222 for assistance).

#### USGen New England, Inc.; Notice of Availability of Final Environmental Assessment

March 28, 2002.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy

Projects has reviewed the application for a new license for the Fifteen Mile Falls Hydroelectric Project, located on the Connecticut River, in Grafton County, New Hampshire and Caledonia County, Vermont, and has prepared a final Environmental Assessment (EA) for the project. The project does not occupy any Federal lands.

On November 16, 2001, the Commission staff issued an EA for the Fifteen Mile Falls Project and requested that any comments be filed within 30 days. Comments were filed by various entities and are addressed in the final EA.

The final EA contains the staff's analysis of the potential environmental effects of the Fifteen Mile Falls Project and various alternatives, including no-action, and concludes that licensing the project, with appropriate environmental measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

A copy of the final EA is available for public review in the Public Reference Branch, Room 2-A, of the Commission's offices at 888 First Street, NE, Washington, DC 20426. The final EA may also be viewed on the web at <http://www.ferc.fed.gov> using the "RIMS" link, select "Docket #" and follow the instructions. Please call (202) 208-2222 for assistance.
