

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 239.

Estimated Time per Response: 6,123.41 hrs. (avg.).

Frequency of Response: Recordkeeping; on occasion reporting requirements.

Total Annual Burden: 1,463,496 hrs.

Total Annual Costs: None.

Needs and Uses: The Uniform System of Accounts is an historical financial accounting system that reports the results of operational and financial events in a manner that enables both management and regulators to assess these results within a specified accounting period. Subject respondents are telecommunications companies. Entities having annual revenues from regulatory telecommunications operations of less than \$114 million are designated as Class B and are subject to a less detailed accounting system than are those designated as Class A companies. In the Order on Reconsideration issued in CC Docket Number 00-199, the FCC reinstated Account 3400, Accumulated Amortization-Tangible.

OMB Control Number: 3060-0556.

Title: Special Requirements for 406.025 MHz EPIRBs.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individual or household; business and or other profit entities.

Number of Respondents: 9,500.

Estimated Time per Response: 5.04 mins (0.084 hrs.).

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 798 hours.

Total Annual Cost: \$0.

Needs and Uses: 47 CFR Section 80.1061 requires owners of 406.025 MHz Emergency Position Indicating Radiobeacons (EPIRBs) to register information such as name, address, and type of vessel with the National Oceanic and Atmospheric Administration (NOAA). If the collection were not conducted, NOAA would not have access to this information, which would increase the time needed to complete a search and rescue operation.

OMB Control Number: 3060-0896.

Title: Broadcast Auction Form Exhibits.

Form Number: FCC 175.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; State, local, or tribal government.

Number of Respondents: 5,650.

Estimated Time per Response: 0.5 to 88 hrs.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 10,903 hrs.

Total Annual Costs: \$32,535,500.

Needs and Uses: The FCC Rules require that broadcast auction participants submit exhibits disclosing ownership, bidding agreements, and engineering data. The Commission staff use these data to ensure that applicants are qualified to participate in Commission auctions and to ensure that license winners are entitled to receive the new entrant bidding credit, if applicable. Exhibits regarding joint bidding agreements are designed to prevent collusion. Submission of engineering exhibits for non-table services enables the Commission to determine which applications are mutually exclusive.

OMB Control Number: 3060-0906.

Title: Annual DTV Report.

Form Number: FCC 317.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions.

Number of Respondents: 525.

Estimated time per response: 2.5 to 4.0 hours.

Frequency of Response: Recordkeeping; annual reporting requirement.

Total annual burden: 1,150.

Total annual costs: \$52,500.

Needs and Uses: The FCC has established a program for assessing and collecting fees for the provision of ancillary or supplementary services by commercial digital television licensees in compliance with section 336(e)(1) of the Telecommunications Act of 1996. On October 11, 2001, the Commission adopted a Report and Order, which extended this requirement to noncommercial educational television licensees. Licensees use FCC Form 317 to report whether they provided ancillary or supplementary services, which services were provided, the services provided that are subject to a fee, gross revenues received from all feeable ancillary and supplementary services, and the amount of bitstream used to provide ancillary or supplementary service. The data are collected annually from digital television licensees. Licensees providing services subject to a fee are also required to file FCC Form 159 (3060-0589) annually to remit the required fee. Each licensee will be required to retain the records supporting the calculation of the fees due for three

years from the date of remittance of fees. The FCC staff uses the data to ensure that DTV licensees comply with the requirements of section 336(e) of the Communications Act.

OMB Control Number: 3060-1003.

Title: Telecommunications Carrier Emergency Contact Information.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; and State, local or tribal government.

Number of Respondents: 5,000.

Estimated Time per Response: 10 mins. (0.167 hrs.).

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 834 hrs.

Total Annual Costs: None.

Needs and Uses: In response to the events of September 11, 2001, the FCC created a Homeland Security Policy Council to assist the Commission in evaluating and strengthening measures for protecting U.S. communications infrastructure and facilities from further terrorist attacks; to assist the Commission in ensuring rapid restoration of communications capabilities after disruption by a terrorist threat or attack; and to assist the Commission in ensuring that public safety, public health, and other emergency and defense personnel have effective communications services available to them in the immediate aftermath of any terrorist attack within the United States. To fulfill this mission, the FCC's Homeland Security Policy Council will contact key communications providers to determine the extent of a communications disruption and appropriate agency response.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 2541]

Petitions for Reconsideration of Action in Rulemaking Proceedings

March 21, 2002.

Petitions for Reconsideration have been filed in the Commission's rulemaking proceedings listed in this Public Notice and published pursuant to 47 CFR Section 1.429(e). The full text of these documents are available for viewing and copying in Room CY-

A257, 445 12th Street, SW., Washington, DC or may be purchased from the Commission's copy contractor, Qualex International (202) 863-2893. Oppositions to these petitions must be filed by April 15, 2002. See Section 1.4(b)(1) of the Commission's rules (47 CFR 1.4(b)(1)). Replies to an opposition must be filed within 10 days after the time for filing oppositions has expired.

Subject: Amendment of FM Table of Allotments (MM Docket No. 01-5).

Number of Petitions Filed: 1.

Subject: Amendment of the Digital TV Table of Allotments (MM Docket No. 00-121, RM-9674).

Number of Petitions Filed: 1.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning information

required by FEMA to revise National Flood Insurance Program Maps.

SUPPLEMENTARY INFORMATION: With the passage of the Flood Disaster Protection Act of 1973, an owner of a structure, with a federally backed mortgage, located in the 1-percent annual chance floodplain, was required to purchase federal flood insurance. This was in response to the escalating damage caused by flooding and the unavailability of flood insurance from commercial insurance companies. However, the 1-percent annual chance floodplain may change due to changes within the floodplain, or may be more accurately depicted through the use of more up-to-date methods and data. FEMA will issue a Letter of Map Revision to officially revise the 1-percent annual chance floodplain.

Collection of Information

Title. Revisions to National Flood Insurance Program Maps: Application Forms for Letters of Map Revision and Conditional Letters of Map Revision.

Type of Information Collection.

Revision of a currently approved collection.

OMB Number: 3067-0148.

Form Numbers. FEMA forms 81-89, 81-89A, 81-89B, 81-89C, 81-89D, 81-89E.

Abstract. The certification forms (referred to as MT-2 series forms) are designed to assist requesters in gathering information that FEMA needs to revise a National Flood Insurance Program map.

FEMA Form 81-89, Overview and Concurrence Form, describes the location of the request, what is being requested, and what data are required to support the request. In addition, NFIP

regulations 44 CFR 65.5(a)(4) require that a community official certify that the request complies with minimum floodplain management criteria specified in 44 CFR 60.3. This form ensures that this requirement is fulfilled prior to the submittal of the request to FEMA.

FEMA Form 81-89A, Riverine Hydrology and Hydraulics Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of hydrologic and hydraulic analyses performed in support of a revision request. It also addresses more common regulatory issues.

FEMA Form 81-89B, Riverine Structures Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of revision requests involving new or modified structures in riverine flood hazard areas; FEMA Form 81-89C, Coastal Analysis Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of coastal analyses performed in support of a revision request. It also addresses more common regulatory issues.

FEMA Form 81-89D, Coastal Structures Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of revision requests involving new or modified structures in coastal flood hazard areas.

FEMA Form 81-89E, Alluvial Fan Flooding Form, allows FEMA to efficiently review assumptions made, parameters used, and the results of alluvial fan flooding analyses performed in support of a revision request.

Estimated Total Annual Burden Hours.

FEMA Forms	No. of Respondents (A)	Frequency of Responses (B)	Hours Per Response (C)	Annual Burden Hours (A x B x C)
81-89	1,400	Annual	1.0	1,400
81-89A	1,400	Annual	3.0	4,200
81-89B	1,400	Annual	7.0	9,800
81-89C	1,400	Annual	1.0	1,400
81-89D	1,400	Annual	1.0	1,400
81-89E	1,400	Annual	1.0	1,400
Total	1,400	14.0	19,600

Estimated Cost. Cost to respondents is estimated to be \$980,000 annually (19,600 annual burden hours x \$50 per hour), while the cost to the Federal Government is estimated to be \$2,500,000 annually.

Comments: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency,

including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those

who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.
