

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday. Please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed above.

SUPPLEMENTARY INFORMATION:

Additional RAC information, including the meeting agenda and the meeting summary/minutes can be found at the following Web site: https://fsplaces.fs.fed.us/fsfiles/unit/wo/secure_rural_schools.nsf/RAC/Modoc+County?OpenDocument. The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should request in writing by May 16, 2014, June 6, 2014 and June 27, 2014 to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the committee may file written statements with the committee staff before or after the meeting. Written comments and requests for time for oral comments must be sent to Adrian Cuzick, Rangeland Management Specialist and Resource Advisory Committee Coordinator, Modoc National Forest, 225 W. 8th St., Alturas, CA 96101; or by email to alcuzick@fs.fed.us, or via facsimile to (530)233-8809.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case by case basis.

Dated: April 28, 2014.

Ann D. Carlson,

Acting Forest Supervisor.

BILLING CODE 3411-15-P

COMMISSION ON CIVIL RIGHTS

Sunshine Act Notice

AGENCY: United States Commission on Civil Rights.

ACTION: Notice of Business Meeting.

DATE AND TIME: Friday, May 16, 2014; 9:30 a.m. EST.

PLACE: 1331 Pennsylvania Ave. NW., Suite 1150, Washington, DC 20425.

MEETING AGENDA

I. Approval of Agenda

II. Program Planning

- Discussion and Vote on Part A of the briefing report: Sex Trafficking: A Gender-Based Civil Rights Violation
- Discussion and Vote on Part A of the briefing report: Engagement with Arab and Muslim American Communities Post 9/11
- Consideration and Vote on Commission Resolution Commemorating the Anniversary of the Civil Rights Act of 1964

III. Management and Operations

- Staff Director's Report

IV. State Advisory Committee (SAC)

Appointments

- Connecticut
- Kansas
- Utah
- Vermont

V. Adjourn Meeting

CONTACT PERSON FOR FURTHER

INFORMATION: Lenore Ostrowsky, Acting Chief, Public Affairs Unit (202) 376-8591.

Hearing-impaired persons who will attend the meeting and require the services of a sign language interpreter should contact Pamela Dunston at (202) 376-8105 or at signlanguage@usccr.gov at least seven business days before the scheduled date of the meeting.

Dated: May 5, 2014.

Marlene Sallo,

Staff Director.

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Comprehensive Regional Decision Support Framework to Prioritize Sites for Coral Reef Conservation in the U.S. Virgin Islands: Survey of Professional SCUBA Divers.

OMB Control Number: 0648-xxxx.

Form Number(s): NA.

Type of Request: Regular submission (request for a new information collection).

Number of Respondents: 238.

Average Hours per Response: 30 minutes.

Burden Hours: 119.

Needs and Uses: This request is for a new data collection to benefit marine resource managers in the U.S. Virgin Islands (USVI). The National Ocean Service (NOS) proposes to collect data on the resource usage patterns, knowledge and values of the professional SCUBA diving community relative to coral reefs in the USVI. Data are needed to support conservation and management goals as defined under the Coral Reef Conservation Act (CRCA) (16 U.S.C. 6401 *et seq.*). The purpose of the CRCA is to advance conservation of coral reef ecosystems in the U.S. and Territories. Specifically, the Act requires the federal government to produce sound scientific information on the condition of coral reef ecosystems and threats to them, so that reefs may be better preserved, sustained and restored. The present data collection is one component of a larger project to produce a science-based decision support tool that will be used by resource managers to prioritize coral reefs in the USVI for the purposes of management under the CRCA.

Researchers propose to collect information from the professional SCUBA diving community in the USVI, who are an important stakeholder group with much knowledge about this marine ecosystem. Information will be gathered from this community because of their experience diving on focal coral reefs and reliance on such ecosystems for their livelihood. The survey will ascertain which coral reef areas are needed/used most by persons in the professional SCUBA diving community. It will gather divers' opinions on the status and health of these coral reefs. Finally, the survey will collect information on the demographic characteristics of professional SCUBA diving community, along with the values they have for local coral reefs.

Data gathered will be used to identify, rank and describe key characteristics of the coral reefs that are most important to the professional SCUBA diving community in the USVI, as well as their perception of reef status and resilience. The survey data will become one of several layers of information combined in a larger effort to objectively map the important reefs in the USVI. Knowledge of the locations of priority reefs, together with an assessment of the threats to those reefs, will provide information to prioritize management actions.
