

Conditions

TUV Rheinland of North America, Inc., must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

TUV must have specific written testing procedures in place before testing products covered by any test standard for which it is recognized and must use these procedures in testing and certifying those products;

TUV must restrict the certification and qualification activities that it performs in its capacity as an NRTL only to its Newtown facility. TUV must perform these activities in accordance with OSHA's relevant policies and criteria for these activities and, in accordance with its response, to the applicable on-site review that OSHA has accepted;

OSHA must be allowed access to the TUV facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If TUV has reason to doubt the efficacy of any test standard it is using under this program, it must promptly inform the organization that developed the test standard of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

TUV must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, TUV agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

TUV must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

TUV will continue to meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition;

TUV will continue to meet the requirements for recognition in all areas where it has been recognized; and

TUV will always cooperate with OSHA to assure compliance with the spirit as well as the letter of its recognition and 29 CFR 1910.7.

Signed at Washington, DC this 20th day of June, 2000.

Charles N. Jeffress,
Assistant Secretary.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR**Occupational Safety and Health Administration**

[Docket No. NRTL-1-93]

Wyle Laboratories, Inc.; Renewal of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: This notice announces the Agency's final decision on the application of Wyle Laboratories, Inc. (Wyle), for renewal of its recognition as a Nationally Recognized Testing Laboratory (NRTL) under 29 CFR 1910.7.

EFFECTIVE DATE: This recognition becomes effective on June 28, 2000 and will be valid until June 28, 2005, unless terminated or modified prior to that date, in accordance with 29 CFR 1910.7.

FOR FURTHER INFORMATION CONTACT: Bernard Pasquet, Office of Technical Programs and Coordination Activities, NRTL Program, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N3653, Washington, D.C. 20210, or phone (202) 693-2110.

SUPPLEMENTARY INFORMATION:**Notice of Final Decision**

The Occupational Safety and Health Administration (OSHA) hereby gives notice of the renewal of recognition of Wyle Laboratories, Inc. (Wyle), as a Nationally Recognized Testing Laboratory (NRTL). Wyle's renewal covers its existing scope of recognition.

OSHA recognition of an NRTL signifies that the organization has met the legal requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, OSHA can accept products "properly certified" by the NRTL. OSHA processes applications related to an NRTL's recognition following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the

Agency publish this public notice of its final decision on an application.

When Wyle received recognition as an NRTL, it was part of Wyle Laboratories, a publicly-held corporation first established in 1949. In 1995, Wyle informed OSHA (see Exhibit 13) that it had become a "privately held company incorporated in the State of Delaware." The "new" company name was also "Wyle Laboratories." In 1997, the NRTL informed OSHA of the sale of its "Electronic Enclosures Division" and requested that OSHA remove a condition that the Agency had imposed in the notice of Wyle's initial recognition. The condition had excluded from the recognition any testing and certification of an "enclosure cabinet manufactured or distributed by Wyle." OSHA granted this request on January 16, 1998 (63 FR 2700).

Wyle received its recognition as an NRTL on July 22, 1994 (59 FR 37509), for a period of five years ending July 24, 1999. Appendix A to 29 CFR 1910.7 stipulates that the period of recognition of an NRTL is five years and that an NRTL may renew its recognition by applying not less than nine months, nor more than one year, before the expiration date of its current recognition. Wyle applied for a renewal of its recognition on August 19, 1998 (see Exhibit 15), within the time allotted, and retains its recognition pending OSHA's final decision in this renewal process.

In its letter of August 19, Wyle requested renewal for its existing scope of recognition, which includes the facility listed below, 122 test standards, and 8 supplemental programs. However, some of the test standards for which Wyle is currently recognized have been withdrawn by the standards developing organization. These standards are UL 465, UL 547, UL 1025, UL 1096, and UL 1624. As appropriate, OSHA has eliminated or replaced these test standards in the list included in the preliminary notice and in the list shown below.

OSHA published the required notice in the **Federal Register** (65 FR 11804, 03/06/2000) to announce Wyle's renewal request. The notice included a preliminary finding that Wyle could meet the requirements for expansion of its recognition, subject to the condition mentioned above, and OSHA invited public comment on the application by May 5, 2000. OSHA received no comments concerning this application.

In processing Wyle's request, OSHA performed an on-site assessment (review) of Wyle's facility in Huntsville, Alabama, on August 3-5, 1999. In the

final report of the on-site review (see Exhibit 16), the assessor recommended the renewal of Wyle's recognition.

The most recent notice that OSHA published for Wyle's recognition concerned the removal of the condition mentioned above. A chronology of the previous notices that OSHA published for Wyle is as follows: an expansion of recognition for additional test standards and programs, which OSHA announced on July 12, 1996 (61 FR 36764) and granted on November 20, 1996 (61 FR 59115); and Wyle's initial recognition, which OSHA announced on January 6, 1994 (59 FR 783) and granted as specified above. The renewal would incorporate all recognitions granted to Wyle through the date of publication of the March 6 notice of preliminary finding.

You may obtain or review copies of all public documents pertaining to the application by contacting the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N2625, Washington, D.C. 20210, telephone: (202) 693-2350. You should refer to Docket No. NRTL-1-93, the permanent records of public information on the Wyle recognition.

The current address of the Wyle facility recognized by OSHA is: Wyle Laboratories, 7800 Highway 20 West, P.O. Box 077777, Huntsville, Alabama 35807.

Final Decision and Order

The NRTL Program staff has examined Wyle's request, the on-site review report, and other pertinent information. Based upon this examination, OSHA finds that Wyle Laboratories, Inc., has met the requirements of 29 CFR 1910.7 for renewal of its recognition, listed below, subject to the limitations and conditions. Pursuant to the authority in 29 CFR 1910.7, OSHA hereby renews the recognition of Wyle, subject to these limitations and conditions.

Limitations

OSHA hereby renews the recognition of Wyle for testing and certification of products to demonstrate conformance to the 139 additional test standards listed below. The NRTL Program staff has determined that each test standard meets the requirements for an appropriate test standard, within the meaning of 29 CFR 1910.7(c). The staff makes such determinations in processing applications requests from any NRTL.

The Agency's recognition of Wyle, or any NRTL, for a particular test standard is always limited to equipment or

materials (products) for which OSHA standards require third party testing and certification before use in the workplace. As a result, OSHA's recognition of an NRTL for a test standard excludes any product(s), falling within the scope of the test standard, for which OSHA has no such requirements.

 UL 1876 Isolating Signal and Feedback Transformers for Use in Electronic Equipment
 UL 1950 Information Technology Equipment, Including Electrical Business Equipment
 UL 1995 Heating and Cooling Equipment
 UL 2006 Halon 1211 Recovery/Recharge Equipment
 UL 2111 Overheating Protection for Motors

For convenience in compiling the list, we generally show the name (i.e., designation and title) used by the standards developing organization (SDO), although many of these standards have been approved as American National Standards by the American National Standards Institute (ANSI). For example, the ANSI designation for UL 22 is ANSI/UL 22. Under our procedures, an NRTL that OSHA has approved for a particular test standard may use either the latest proprietary version of the test standard or the latest ANSI version of that standard, regardless of whether it is currently recognized for the proprietary or ANSI version. Contact ANSI or visit the ANSI web site to find out whether or not a standard is currently ANSI approved.

None of the above standards had been withdrawn by the standards developing organization (SDO) at the time of the preparation of the notice of preliminary finding.

Programs and Procedures

Wyle also requested continued use of the supplemental programs listed below, based upon the criteria detailed in the March 9, 1995 **Federal Register** notice (60 FR 12980, 3/9/95). This

notice lists nine (9) programs and procedures (collectively, programs), eight of which (called supplemental programs) an NRTL may use to control and audit, but not actually to generate, the data relied upon for product certification. An NRTL's initial recognition will always include the first or basic program, which requires that all product testing and evaluation be performed in-house by the NRTL that will certify the product. OSHA previously granted Wyle recognition to use these programs, which are listed in OSHA's informational web page on the Wyle recognition.

Program 2: Acceptance of testing data from independent organizations, other than NRTLs.

Program 3: Acceptance of product evaluations from independent organizations, other than NRTLs.

Program 4: Acceptance of witnessed testing data.

Program 5: Acceptance of testing data from non-independent organizations.

Program 6: Acceptance of evaluation data from non-independent organizations (requiring NRTL review prior to marketing).

Program 7: Acceptance of continued certification following minor modifications by the client.

Program 8: Acceptance of product evaluations from organizations that function as part of the International Electrotechnical Commission Certification Body (IEC-CB) Scheme.
 Program 9: Acceptance of services other than testing or evaluation performed by subcontractors or agents.

OSHA developed the program descriptions to limit how an NRTL may perform certain aspects of its work and to accept the activities covered under a program only when the NRTL meets certain criteria. In this sense, they are special conditions that the Agency places on an NRTL's recognition. OSHA does not consider these programs in determining whether an NRTL meets the requirements for recognition under 29 CFR 1910.7. However, OSHA does treat these programs as one of the three elements that defines an NRTL's scope of recognition.

Conditions

Wyle Laboratories, Inc., must also abide by the following conditions of the recognition, in addition to those already required by 29 CFR 1910.7:

OSHA must be allowed access to the Wyle facilities and records for purposes of ascertaining continuing compliance with the terms of its recognition and to investigate as OSHA deems necessary;

If Wyle has reason to doubt the efficacy of any test standard it is using

under this program, it must promptly inform the organization that developed the test standard of this fact and provide that organization with appropriate relevant information upon which its concerns are based;

Wyle must not engage in or permit others to engage in any misrepresentation of the scope or conditions of its recognition. As part of this condition, Wyle agrees that it will allow no representation that it is either a recognized or an accredited Nationally Recognized Testing Laboratory (NRTL) without clearly indicating the specific equipment or material to which this recognition is tied, or that its recognition is limited to certain products;

Wyle must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major changes in its operations as an NRTL, including details;

Wyle will continue to meet all the terms of its recognition and will always comply with all OSHA policies pertaining to this recognition;

Wyle will continue to meet the requirements for recognition in all areas where it has been recognized; and

Wyle will always cooperate with OSHA to assure compliance with the spirit as well as the letter of its recognition and 29 CFR 1910.7.

Signed at Washington, D.C. this 20th day of June, 2000.

Charles N. Jeffress,

Assistant Secretary.

BILLING CODE 4510-26-P

DEPARTMENT OF LABOR

Pension and Welfare Benefits Administration

Agency Information Collection Activities; Announcement of OMB Approval

AGENCY: Pension and Welfare Benefits Administration, Department of Labor.

ACTION: Notice.

SUMMARY: The Pension and Welfare Benefits Administration (PWBA) is announcing that collections of information included in its Interim Rules for the Health Insurance Portability for Group Health Plans, the guidance on implementation of the Health Insurance Portability and Accountability Act of 1996 (HIPAA interim rules), specifically, the Notice of Enrollment Rights, the Notice of Pre-Existing Condition Exclusion, and

Establishing Prior Creditable Coverage, have been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995. This notice announces the OMB approval numbers and expiration dates.

FOR FURTHER INFORMATION CONTACT:

Address requests for copies of the information collection requests (ICRs) to Gerald B. Lindrew, U.S. Department of Labor, Pension and Welfare Benefits Administration, 200 Constitution Avenue, NW. Room N-5647, Washington, DC, 20210. Telephone: (202) 219-4782. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of December 28, 1999 (64 FR 72696), the Agency announced its intent to request renewal of its current OMB approval for the Notice of Enrollment Rights, an information collection request (ICR) included in the HIPAA interim rules. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) (PRA 95), OMB has renewed its approval for the information collection request (ICR) under OMB control number 1210-0101. The approval expires 06/30/2003.

In the **Federal Register** of December 28, 1999 (64 FR 72697), the Agency announced its intent to request renewal of its current OMB approval for the Notice of Pre-Existing Condition Exclusion, an ICR included in the HIPAA interim rules. In accordance with PRA 95, OMB has renewed its approval for the ICR under OMB control number 1210-0101. The approval expires 06/30/2003.

In the **Federal Register** of December 28, 1999 (64 FR 72698), the Agency announced its intent to request renewal of its current OMB approval for Establishing Creditable Coverage, an ICR included in the HIPAA interim rules. In accordance with PRA 95, OMB has renewed its approval for the ICR under OMB control number 1210-0103. The approval expires 06/30/2003.

Under 5 CFR 1320.5(b), an Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid control number.

Dated: June 21, 2000.

Gerald B. Lindrew,

Deputy Director, Office of Policy and Research, Pension and Welfare Benefits Administration.
