SUPPLEMENTARY INFORMATION:

Title: Oil and Gas Resources, 36 CFR part 228, subpart E.

OMB Number: 0596-0101.

Expiration Date of Approval: Three years from final approval.

Type of Request: Reinstatement.

Abstract: The current rule contains procedures the Forest Service, USDA will use to accomplish the purposes of the Federal Onshore Oil and Gas Leasing Reform Act of 1987, and other applicable mineral leasing and environmental protection statutes, in offering oil and gas leases and managing the development of oil and gas resources on National Forest System lands. The Leasing Reform Act authorizes the Secretary of Agriculture to develop procedures and regulations governing leasing for oil and gas resources, including bonding and reclamation requirements, within the National Forest System. This authority was formerly exercised by the Bureau of Land Management. These regulations achieve our primary objectives of ensuring effective compliance with all applicable environmental protection statutes, as most recently construed by the Federal Courts, in conjunction with meeting the intent of Congress codified in the Leasing Reform Act. These regulations have been designed to work in coordination with similar regulations of the Department of the Interior, and to promote a cooperative process between the Federal agencies, the oil and gas industry, and members of the public who are interested in the management of Federal lands and resources.

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

[Docket No. NRCS-2023-0001]

Notice of Intent To Prepare an Environmental Impact Statement for the Wood River Watershed, Custer County, Dawson County, Buffalo County, Hall County, and Merrick County, Nebraska

AGENCY: Natural Resources Conservation Service, USDA.

ACTION: Notice of intent to prepare an environmental impact statement (EIS).

SUMMARY: The Natural Resources Conservation Service (NRCS) Nebraska State Office announces its intent to prepare an EIS for the Wood River Watershed Project in the proximity of Oconto, Nebraska, downstream to Grand Island, Nebraska. The EIS process will examine the potential impacts of alternative solutions to reduce flood risk and damages caused by flooding to the communities and agricultural lands throughout the watershed. NRCS is requesting comments to identify significant issues, potential alternatives, information, and analyses relevant to the proposed action from all interested individuals, Federal and State agencies, and Tribes.

DATES: We will consider comments that we receive by March 13, 2023. Comments received after the close of the comment period will be considered to the extent possible.
