

to subsection (b)(3) of the Privacy Act for those systems of records from which they intend to disclose this information. The DoD system of records described in this notice contains an appropriate routine use proviso, which permits disclosure of information by DMDC to the SSA.

2. DoD will use personal data from the record system identified as DMDC 01, entitled "Defense Manpower Data Center Data Base", November 23, 2011, 76 FR 72391. Disclosure of DMDC data will be pursuant to Routine Use (RU) number 5b.

3. SSA will use records from a system of records identified as 60–0103, entitled "Supplemental Security Income Record and Special Veterans Benefits, SSA/ODSSIS", last published in the **Federal Register** at 71 FR 1830, January 11, 2006. Disclosure of data will be pursuant to RU number 3 and 19.

E. DESCRIPTION OF COMPUTER MATCHING PROGRAM: SSA, as the source agency, will provide DMDC with an electronic file which contains the data elements. Upon receipt of the electronic file, DMDC, as the recipient agency, will perform a computer match using all nine digits of the SSN of the SSI/SVB file against a DMDC database which contains the data elements. The DMDC database consists of extracts of personnel and pay records of retired members of the uniformed services or their survivors. The "hits" or matches will be furnished to SSA. SSA is responsible for verifying and determining that the data on the DMDC electronic reply file are consistent with the SSA source file and resolving any discrepancies or inconsistencies on an individual basis. SSA will also be responsible for making final determinations as to eligibility for/entitlement to, or amount of payments/benefits, their continuation or needed adjustments, or any recovery of overpayments as a result of the match.

1. The electronic file provided by SSA will contain approximately 9.5 million records extracted from the SSR/SVB.

2. The electronic DMDC database contains records on approximately 2.5 million retired uniformed service members or their survivors.

3. DMDC will match the SSN on the SSA file by computer against the DMDC database. Matching records, "hits" based on SSNs, will produce data elements of the individual's name; SSN; active or retired; if active, military service or employing agency, and current work or home address, and such other data as considered necessary.

F. INCLUSIVE DATES OF THE MATCHING PROGRAM: The effective date of the matching agreement and date

when matching may actually begin shall be at the expiration of the 40-day review period for OMB and Congress, or 30 days after publication of the matching notice in the **Federal Register**, whichever date is later. The parties to this agreement may assume OMB and Congressional concurrence if no comments are received within 40 days of the date of the transmittal letter. The 40-day OMB and Congressional review period and the mandatory 30-day public comment period for the **Federal Register** publication of the notice will run concurrently. By agreement between SSA and DoD, the matching program will be in effect for 18 months with an option to renew for 12 additional months unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement.
