The Corps will serve as the lead agency for compliance with the National Environmental Policy Act (NEPA). The general reevaluation is assessing opportunities to restore ecosystem function along the

Sacramento River and improve flood risk reduction capabilities of the flood conveyance system originally constructed in 1917. The system is located along the Sacramento River, from Elder Creek near Tehama to its confluence with the San Joaquin River in the Sacramento-San Joaquin Delta near Collinsville. System features are also located along a number of tributaries, sloughs, and bypass channels, including the Feather River, American River, Sutter Bypass, and Yolo Bypass.

DATES: Written comments regarding the scope of the general reevaluation and DEIS should be received by the Corps on or before November 23, 2015.

ADDRESSES: Send written comments and suggestions concerning this general reevaluation and DEIS to Mr. Dan Artho, U.S. Army Corps of Engineers, Sacramento District, Attn: Planning Division (CESPK-PD), 1325 J Street, Sacramento, CA 95814 or via email at daniel.f.artho@usace.army.mil.
