Title: Uniform Grant Application Package for Discretionary Grant Programs.

Form Number: SF-424 Form Family.

OMB Number: 0584-0512.

Expiration Date: August 31, 2016.

Type of Request: Revision of a currently approved collection.

Abstract: FNS has a number of discretionary grant programs. (Consistent with the definition in 2 CFR part 200, the term "grant" as used in this notice includes cooperative agreements.) The authorities for these grants vary and will be cited as part of each grant application solicitation. The purpose of the revision to the currently approved collection for the Uniform Grant Application Package for Discretionary Grant Programs is to continue the authority for the established uniform grant application package and to update the number of collection burden hours. The uniform collection package is useable for all of FNS' discretionary grant programs to collect information from grant applicants that are needed to evaluate and rank applicants and protect the integrity of the grantee selection process. All FNS discretionary grant programs will be eligible, but not required, to use the uniform grant application package. Before soliciting applications for a discretionary grant

program, FNS will decide whether the uniform grant application package will meet the needs of that grant program. If FNS decides to use the uniform grant application package, FNS will note in the grant solicitation that applicants must use the uniform grant application package and that the information collection has already been approved by OMB. If FNS decides not to use the uniform grant application package or determines that it needs grant applicants to provide additional information not contained in the uniform package, then FNS will publish a notice soliciting comments on its proposal to collect different or additional information before making the grant solicitation.

The uniform grant application package will include general information and instructions; a checklist; a requirement for the program narrative statement describing how the grant objectives will be reached; the Standard Form (SF) 424 series that request basic information, budget information, and a disclosure of lobbying activities certification. The proposed information collection covered by this notice is related to the requirements for the program narrative statement. The requirements for the program narrative statement are based on the requirements for program narrative statements described in 2 CFR part 200, Appendix I, and will apply to all types of grantees—State and Local governments, Indian Tribal organizations, Non-Profit organizations, Institutions of Higher Education, and For-Profit organizations. The information collection burden related to the SF-424 series, and the lobbying certification forms have been separately approved by OMB.

SUPPLEMENTARY INFORMATION:

Title: Review of Supplemental Nutrition Assistance Program/Medicaid Eligibility Technology Integration.

Form Number: N/A.

OMB Number: 0584-NEW.

Expiration Date: Not Yet Determined.

Type of Request: New information collection request.

Abstract: The Supplemental Nutrition Assistance Program (SNAP), (The Food and Nutrition Act of 2008 [As Amended Through Pub. L. 113-128, Enacted July 22, 2014]) provides nutrition assistance benefits to millions of eligible, low-income individuals and families nationwide. SNAP is administered by FNS, but operates at the State and local level. States have varying degrees of integration across their health and human service programs. To meet statutory requirements of the Patient Protection and Affordable Care Act (Pub. L. 111-148), many States have altered their technical platforms and business processes. In order to assess how these changes may have positively or negatively impacted SNAP, FNS proposes to collect information on State agency structure, staffing, and operations; eligibility system and business process functions; application procedures; the nature of relationships and connections between Medicaid and SNAP; and other details relevant to understanding how clients engage State systems and ways in which their access to SNAP can be enhanced. Specifically, this information collection will be undertaken through administration of a voluntary Integration/Operations Survey to 50 States, the District of Columbia, Guam, and the U.S. Virgin Islands. Based on previous experience, we
