SUPPLEMENTARY INFORMATION:**I. Abstract**

The Economic Development Administration (EDA) leads the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. Guided by the basic principle that sustainable economic development should be locally-driven, EDA works directly with communities and regions to help them

build the capacity for economic development based on local business conditions and needs. The Public Works and Economic Development Act of 1965 (PWEDA) (42 U.S.C. 3121 *et seq.*) is EDA's organic authority and is the primary legal authority under which EDA awards financial assistance. Under PWEDA, EDA provides financial assistance to both rural and urban distressed communities by fostering entrepreneurship, innovation, and productivity through investments in infrastructure development, capacity building, and business development to attract private capital investments and new and better jobs to regions experiencing economic distress. Further information on EDA programs and financial assistance opportunities can be found at www.eda.gov.

To effectively administer and monitor its economic development assistance programs, EDA collects certain information from applicants for, and recipients of, EDA investment assistance. The purpose of this notice is to seek comments from the public and other Federal agencies on a request for an extension of this information collection where a recipient must submit a written request to EDA to amend an investment award and provide such information and documentation as EDA deems necessary to determine the merit of altering the terms of an award (see 13 CFR 302.7(a)). Additionally, EDA may require a recipient to submit a project service map and information from which to determine whether services are provided to all segments of the region being assisted (see 13 CFR 302.16(c)). This information collection is scheduled to expire on January 31, 2025.

II. Method of Collection

Amendments and project service maps are collected via both paper or electronic submissions, including email. A recipient must submit a written request to EDA to amend an investment award and provide such information and documentation as EDA deems necessary to determine the merit of altering the terms of an award (see 13 CFR 302.7(a)). EDA may require a recipient to submit a project service map and information from which to determine whether services are provided to all segments of the region being assisted (see CFR 302.16(c)). EDA is not proposing any changes to the current information collection request.
