

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, we, the U.S. Geological Survey (USGS) are proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before January 31, 2022.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192 or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Nicole Herman-Mercer by email at nhmercer@usgs.gov or by telephone at 303–236–5031. Individuals who are hearing or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper performance of functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is our estimate of the burden for this ICR accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your

comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The United States is facing growing challenges related to the availability of water due to shifting demographics, aging water-delivery infrastructure, and the impacts of climate change, which include flood and drought. Working with incomplete knowledge, managers must consider the needs of various demographic groups and economic sectors when making management decisions as well as when responding to emergencies. We will collect information regarding the decision-making process, data, and data-format needs to support daily, long-term, and emergency response decision-making. Information will also be sought on the resiliency of water-resource management institutions. A lack of resiliency within water institutions can lead to poor decision-making and outcomes that produce conflict between water-use sectors, states, or communities and ultimately may lead to crises. This information will support the delivery of appropriate data, in appropriate formats, at the right time for decision-making and emergency response, as well as how water-resource institutions can be more resilient in the face of the many water-resources challenges the nation currently faces.

Title of Collection: Water Resources Management—Institutional Resiliency, Hazards Planning, and Data Delivery.

OMB Control Number: 1028–NEW.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–125 (Fifth Review)]

Potassium Permanganate From China Determination

On the basis of the record¹ developed in the subject five-year review, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that revocation of the antidumping duty order would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted this review on February 1, 2021 (86 FR 7743) and determined on May 7, 2021 that it would conduct a full review (86 FR 27477, May 20, 2021). Notice of the scheduling of the Commission’s review and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on June 7, 2021 (86 FR 30256). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its hearing through written testimony and video conference on October 5, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made this determination pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determination in this review on November 29, 2021. The views of the Commission are contained in USITC Publication 5241 (November

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).

2021), entitled *Potassium Permanganate from China: Investigation No. 731–TA–125 (Fifth Review)*.

By order of the Commission.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 731–TA–1296 (Final)]

Hot-Rolled Steel Flat Products From Turkey; Request for Comments Regarding the Institution of a Section 751(b) Review Concerning the Commission’s Affirmative Determination

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission invites comments from the public on whether changed circumstances exist sufficient to warrant the institution of a review pursuant to the Tariff Act of 1930 (the Act) regarding the Commission’s affirmative determination in investigation No. 731–TA–1296 (Final). The purpose of the proposed review is to determine whether revocation of the existing antidumping duty order on imports of hot-rolled steel flat products from Turkey is likely to lead to continuation or recurrence of material injury. The Commission further requests comments concerning the degree to which such a proceeding can be conducted in conjunction with the pending five-year review of the antidumping duty order on the same subject merchandise.

DATES: December 2, 2021.
