

A. Executive Order 12866, Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a significant regulatory action and was therefore not submitted to the Office of Management and Budget (OMB) for review.

B. Paperwork Reduction Act

This rule does not impose any new information collection burden under the Paperwork Reduction Act not already approved by the OMB.

C. Regulatory Flexibility Act

I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act. This action will not impose any requirements on small entities.

D. Unfunded Mandates Reform Act

This action does not contain any unfunded mandate as described in the Unfunded Mandates Reform Act, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. This action imposes no enforceable duty on any state, local or tribal governments, or the private sector.

E. Executive Order 13132, Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, tribes, or the relationship between the national government and the states and tribes, or on the distribution of power and responsibilities among the various levels of government.

F. Executive Order 13175, Coordination With Indian Tribal Governments

Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), requires the EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian Tribes.”

The state’s submission does not apply to any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal

implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175.

G. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

The EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of “covered regulatory action” in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it does not concern an environmental health risk or safety risk.

H. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use

This proposed action is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001) because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act

This rulemaking does not involve technical standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population

The State did not evaluate environmental justice considerations as part of its SIP submittal. There is no information in the record indicating that this action would be inconsistent with the stated goals of Executive Order 12898 of achieving environmental justice for people of color, low-income populations, and indigenous peoples.

SUPPLEMENTARY INFORMATION:

I. Background

As the largest consumer of commercial products and services, the federal government must ensure its contracting officers include the appropriate safeguards when procuring these products and services. As part of GSA’s regulatory review efforts, GSA identified several duplicative and outdated clauses incorporated by reference at GSAR 552.212–71 *Contract Terms and Conditions Applicable to GSA Acquisitions of Commercial Products and Commercial Services*, GSAR 552.212–72 *Contract Terms and Conditions Required To Implement Statutes or Executive Orders Applicable to GSA Acquisition of Commercial Products and Commercial Services*, and other related GSAR sections. This proposed rule streamlines and reorganizes the references in GSAR Clauses 552.212–71 and 552.212–72, and other related GSAR sections for contracting officers to consider inserting in solicitations and contracts for procuring commercial products and services. As a result, the deletion of some of the references within these clauses will reduce the time contracting officers spend on reviewing for applicability for commercial procurements.

GSA is amending the GSAR to reorganize 552.212–71 and 552.212–72 to reduce duplication of content and to ensure consistency within GSA’s guidance as it relates to the acquisition of commercial products and commercial services. In addition, GSA is amending the GSAR to reorganize 515.408 and 538.273 to correct technical errors and clarify clauses.

II. Authority for This Rulemaking

Title 40 of the United States Code (U.S.C.) Section 121 authorizes GSA to issue regulations, including the GSAR, to control the relationship between GSA and contractors.

III. Discussion and Analysis

GSA’s review of the GSAR clauses for procuring commercial products and services resulted in the reorganization of GSAR clauses and applicable parts including the removal, transferring and
