## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[MT-020-1010-PO]

#### Notice of Public Meeting, Eastern Montana Resource Advisory Council Meeting

**AGENCY:** Bureau of Land Management, Interior, Montana, Billings and Miles City Field Offices

**ACTION:** Notice of public meeting

**SUMMARY:** In accordance with the Federal Land Policy and Management Act (FLPMA) and the Federal Advisory Committee Act of 1972 (FACA), the U.S. Department of the Interior, Bureau of Land Management (BLM) Eastern Montana Resource Advisory Council (RAC), will meet as indicated below.

**DATES:** The meetings will be held on September 18 and 19, 2007 in Alzada, MT. The meetings will start at 8 a.m. and adjourn at approximately 3:30 p.m. each day. The public comment period will be at 11 a.m. on the 18th. When determined, the meeting location will be announced in a news release.

**FOR FURTHER INFORMATION CONTACT:** Mark Jacobsen, Public Affairs Specialist, Miles City Field Office, 111 Garryowen Road, Miles City, Montana, 59301. Telephone: (406) 233-2831.

**SUPPLEMENTARY INFORMATION:** The 15-member Council advises the Secretary of the Interior, through the Bureau of Land Management, on a variety of planning and management issues associated with public land management in Montana. At this meeting, topics will include: Miles City and Billings Field Office manager updates, OHV subcommittee report and discussion session, Mining reclamation and travel management related field trips—and other topics the council may raise.

All meetings are open to the public. The public may present written comments to the Council. Each formal Council meeting will also have time

allocated for hearing public comments. Depending on the number of persons wishing to comment and time available, the time for individual oral comments may be limited. Individuals who plan to attend and need special assistance, such as sign language interpretation, tour transportation or other reasonable accommodations, should contact the BLM as provided above.

Dated: August 7, 2007.

**M. Elaine Raper,**

*Field Manager.*

## DEPARTMENT OF THE INTERIOR

### Bureau of Reclamation

#### Resource Management Plan, Newlands Project, Washoe, Lyon, and Churchill Counties, NV

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of intent to prepare an environmental document (environmental assessment or environmental impact statement) and notice of public meetings.

**SUMMARY:** Pursuant to the National Environmental Policy Act (NEPA), the Bureau of Reclamation (Reclamation) proposes to prepare an environmental document for the purpose of evaluating options for management of natural resources within the Newlands Project.

The purpose of the action is to prepare a Resource Management Plan (RMP) for the lands managed in association with the Newlands Project. The RMP will be used to foster proper stewardship of public lands. The goal of Reclamation's RMP is to create a balance of resource development, recreation, and protection of natural and cultural resources for the lands and waters being managed. The plan will outline Reclamation management actions that will be implemented over a 10-year planning span.

**DATES:** Public scoping meetings will be held to solicit public input on identification of resource issues on Newlands Project lands and features, and for the development of alternative management strategies for those resources. There will be additional opportunities to comment on the scope of alternatives and impacts at such time as those alternatives and impacts have been further developed through the RMP and NEPA process.

The meetings dates and times are as follows:

- Tuesday, September 18, 2007, 6 to 8 p.m., Reno, NV.
- Wednesday, September 19, 2007, 6 to 8 p.m., Fallon, NV.

Written comments should be mailed to Reclamation at the address below by October 3, 2007.

**ADDRESSES:** The public scoping meeting locations are:

- Reno at the Western Heritage Cultural Center, 6000 Bartley Ranch Road.

- Fallon at the Fallon Convention Center, 100 Campus Way.

Written comments on the scope of this action should be sent to: Ms. Terri Edwards, Bureau of Reclamation, 705 N. Plaza Street, Room 320, Carson City, NV 89701, via e-mail [tedwards@mp.usbr.gov](mailto:tedwards@mp.usbr.gov), or faxed to 775-884-8376.

**FOR FURTHER INFORMATION CONTACT:** Ms. Terri Edwards, Reclamation Project Manager, at the above address, at 775-884-8353, via fax at 775-884-8376, or e-mail at [tedwards@mp.usbr.gov](mailto:tedwards@mp.usbr.gov).

**SUPPLEMENTARY INFORMATION:** Reclamation's authority to prepare RMPs is specifically outlined in the Reclamation Recreation Management Act of 1992 (Pub.L. 102-575, Title 28). The Act authorized the preparation of RMPs to "provide for the development, use, conservation, protection, enhancement, and management of resources of Reclamation lands *in a manner that is compatible with the authorized purposes of the Reclamation Project* associated with the Reclamation lands."

The Newlands Project is primarily an irrigation project as set forth in legislation. The purposes of the Newlands Project were expanded in 1990 under Section 209 of Public Law 101-618. In addition to the existing irrigation purpose of the Newlands Reclamation Project, the Secretary of Interior is authorized to operate and maintain the project for the purposes of:

1. Fish and wildlife, including endangered and threatened species;
2. Municipal and industrial water supply in Lyon and Churchill counties, Nevada, including the Fallon Indian Reservation;
3. Recreation;
4. Water quality; and
5. Any other purposes recognized as beneficial under the law of the State of Nevada.

However, additional uses of the Newlands Project (1) Must have valid water rights and follow State law for any water right transfers; (2) must not increase diversions of Truckee River water to the Newlands Project over those allowed under applicable

operating criteria and procedures; and (3) must not conflict with applicable court decrees.

Reclamation has a contract with the Truckee-Carson Irrigation District to operate and maintain the Newlands Project Works. There is no intention to address operation and maintenance of Project Works through this RMP process.

The Newlands Project RMP should achieve the following:

1. Identify issues and set forth goals and procedures for managing and administering resources on public lands.
2. Establish use levels and types of development that protect resources and are compatible with the uses of the public within legal and policy constraints; minimize conflicts among users.
3. Provide a flexible tool for land managers to assist in the proper administration, day-to-day operation, development, and management of public lands.
4. Provide a tool to aid in setting funding and staffing levels.

If special assistance is required at the scoping meetings, please contact Terri Edwards at 775-884-8353 or via e-mail at [tedwards@mp.usbr.gov](mailto:tedwards@mp.usbr.gov). Please notify Ms. Edwards as far in advance of the meetings as possible to enable Reclamation to secure the needed services. If a request cannot be honored, the requestor will be notified. A telephone device for the hearing impaired (TDD) is available at 916-978-5608.

Before including your name, address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: August 7, 2007.

## INTERNATIONAL TRADE COMMISSION

### Notice of Commission Determination To Institute Advisory Opinion Proceedings; in the Matter of Certain Laser Bar Code Scanners and Scan Engines, Components Thereof, and Products Containing Same; Investigation No. 337-TA-551

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has determined to institute an advisory opinion proceeding in the above-captioned investigation.

**FOR FURTHER INFORMATION CONTACT:** Paul M. Bartkowski, Esq., Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 708-5432. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

**SUPPLEMENTARY INFORMATION:** This investigation was instituted on October 26, 2005, based on a complaint filed by Symbol Technologies Inc. ("Symbol") of Holtsville, New York. The complaint, as amended, alleged violations of Section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain laser bar code scanners or scan engines, components thereof, or products containing the same, by reason of infringement of various claims of United States Patent Nos. 5,457,308 ("the '308 patent"); 5,545,889 ("the '889 patent"); 6,220,514 ("the '514 patent"); 5,262,627 ("the '627 patent"); and 5,917,173 ("the '173 patent"). The complaint named two respondents: Metro Technologies Co., Ltd. of Suzhou, China, and Metrologic Instruments, Inc. of Blackwood, New Jersey (collectively, "Metrologic").

On January 29, 2007, the ALJ issued an initial determination ("ID") finding a violation of section 337 in the importation of certain laser bar code scanners and scan engines, components thereof, and products containing the same, in connection with certain asserted claims. The ID also issued monetary sanctions against Respondents for discovery abuses. Complainant, Respondents, and the Commission investigative attorney ("IA") each filed petitions for review of the ID on February 8, 2007. They each filed responses to each other's petitions on February 16, 2007.

The Commission determined to review the following issues: (1) The construction of the limitation "single, unitary, flexural component" in the '173 patent, and related issues of infringement, domestic industry, and validity; (2) the construction of the limitation "oscillatory support means" in the '627 patent, and related issues of infringement, domestic industry, and validity; (3) the construction of claims in the '889 patent containing "central area" limitations, and related issues of infringement, domestic industry, and validity; (4) the construction of the "scan fragment" limitation in the asserted claims of the '308 patent; and (5) the construction of the term "plurality" in the asserted claims of the '308 patent.

On May 30, 2007, the Commission determined to make the following modifications to the claim constructions set forth in the final ID: (1) In the '173 patent, the "single, unitary, flexural component" must include "portions integral with each other;" (2) in the '627 patent, the "oscillatory support means" must oscillate; (3) the limitations in the '889 patent containing requirements that the folding mirror be "near" or "adjacent" the central area of the collecting mirror allow for the folding mirror to be positioned close to, and either in front of or behind, the central area of the collecting mirror, but do not allow it to be mounted to the collecting mirror outside of the central area; (4) "scan fragment," as used in the '308 patent, means "a scan that reads less than all of a bar code symbol and that would have been discarded before the advent of scan-stitching techniques;" and (5) the term "plurality" in the '308 patent means "two or more."

These changes did not affect the ALJ's findings on validity, infringement, or domestic industry. The Commission therefore affirmed those findings, as well as his finding of a violation of section 337 by Metrologic with regard to claim 48 of the '627 patent and claims 17 and 18 of the '173 patent. Consistent
