

This option provides flexibility for the agency and affected property owners and tenants. The FHWA requests the State Departments of Transportation (State DOTs) to analyze moving cost data periodically to assure that the fixed residential moving cost schedules accurately reflect reasonable moving and related expenses. The regulation allows State DOTs flexibility in determining how to collect the cost data in order to reduce the burden of government regulation. Updated State fixed residential moving costs are submitted to the FHWA electronically.

Respondents: State Departments of Transportation (52, including the District of Columbia and Puerto Rico).

Frequency: Once every 3 years.

Estimated Average Burden per Response: 24 hours per respondent.

Estimated Total Annual Burden Hours: 24 hours for each of the 52 State Departments of Transportation. The total is 1,248 burden hours, once every 3 years, or 416 hours annually.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: December 17, 2013.

SUPPLEMENTARY INFORMATION:

Title: Utilization of the Private Sector for Surveying and Mapping Services.

Background: Section 1517 of MAP-21, the Moving Ahead for Progress in the 21st Century Act (Pub. L. 112-141), requires the Secretary of Transportation to conduct a survey of all States to determine the percentage of projects carried out under title 23, United States Code, in each State that utilize private sector sources for surveying and mapping services. Additionally, Section 306 of Title 23, United States Code, requires the Secretary of Transportation to issue guidance to encourage States to utilize, to the maximum extent practicable, private sector sources for surveying and mapping services for projects under title 23 of the United States Code; and, to develop a process for the oversight and regular monitoring of each State's use of the private sector to provide these services.

The FHWA, via a survey, will be requesting information from the State Transportation Agencies to determine the percent of projects in each state for which private sector sources were utilized for surveying and mapping services. Included in the survey will be the request for information from the State transportation agencies, on the extent to which they use the private sector for surveying and mapping activities. Information obtained from the survey will be used to issue revised guidance recommending appropriate roles for government and private sector surveying activities and in continuing to encourage States to use private sector sources to provide these services. The survey results will also be used to develop a process for the oversight and regular monitoring of each State's use of

the private sector to provide these services.

Respondents: State Transportation Agencies (52, including the District of Columbia and Puerto Rico) in the first year, with follow-up surveys every two years after the initial survey.

Frequency: Every two years after the initial survey.

Estimated Average Burden per Response: 24 hours per participant State and 1.5 hours in the follow-up years.

Estimated Total Annual Burden Hours: Approximately 1,248 hours in the first year and 78 hours in the follow-up years.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: December 17, 2013.
