

Written comments on this application should be submitted via email to [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov). Please include File No. 20416–01 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to [NMFS.Pr1Comments@noaa.gov](mailto:NMFS.Pr1Comments@noaa.gov). The request should set forth the specific reasons why a hearing on this application would be appropriate.

**FOR FURTHER INFORMATION CONTACT:** Malcolm Mohead or Erin Markin, Ph.D. at (301) 427–8401.

**SUPPLEMENTARY INFORMATION:** The subject permit modification to Permit No. 24016, issued on January 28, 2021 (86 FR 13700, March 10, 2021), is requested under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

Permit No. 24016 currently authorizes the permit holder to conduct scientific research on Atlantic and shortnose sturgeon in freshwater and estuary areas of the Chesapeake Bay and other coastal rivers, assessing sturgeon population and reproductive capacity, as well as monitoring spawning activity, movement, and habitat through telemetry. Atlantic and shortnose sturgeon life stages may be captured using gill or trammel nets, trawls, and trapping nets (e.g., fyke, or other trap nets). All animals are marked with passive integrated transponder (PIT) and Floy tags, genetic tissue sampled, measured, weighed, photographed and released. Subsets of animals are also anesthetized, and internally or externally acoustically tagged, biologically sampled (*i.e.*, fin ray, blood, gametes), endoscoped and ultrasounded. Larvae and eggs are currently collected with D-nets, trawls (*i.e.*, epibenthic sleds), and egg mats. The applicant anticipates that up to one adult/sub-adult and one juvenile Atlantic sturgeon may be killed annually. The proposed modification focuses on activities designed to stage the reproductive status of eggs collected from female sturgeon captured from the York River (Virginia) and its tributaries. To understand sturgeon egg development and spawning characteristics in the York River, the Permit Holder is requesting to directly sample an additional 800 eggs using an approved egg extraction device. The permit is valid through January 31, 2031.

Dated: April 25, 2023.

#### Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 2.

**SUMMARY:** The SEDAR 82 assessment of the South Atlantic stock of gray triggerfish will consist of a data workshop, a series of assessment webinars, and a review workshop. A SEDAR 82 Assessment Webinar 2 is scheduled for May 18, 2023. See **SUPPLEMENTARY INFORMATION.**

**DATES:** The SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 2 is scheduled for May 18, 2023, from 9 a.m. to 12 p.m., Eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

#### ADDRESSES:

**Meeting address:** The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at [Kathleen.Howington@safmc.net](mailto:Kathleen.Howington@safmc.net).

**SEDAR address:** South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; [www.sedarweb.org](http://www.sedarweb.org).

**FOR FURTHER INFORMATION CONTACT:** Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571–4371; email: [Kathleen.Howington@safmc.net](mailto:Kathleen.Howington@safmc.net).

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management

Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 82 South Atlantic Gray Triggerfish Assessment Webinar 2 are as follows: Discuss any leftover data issues that were not cleared up during the data process, answer any questions that the analysts have, and introduce/discuss model development and model setup.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

## Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: April 26, 2023.

**Rey Israel Marquez,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[RTID 0648–XC957]

### New England Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The New England Fishery Management Council (Council) is scheduling a joint public meeting of its Monkfish and Dogfish Committees via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

**DATES:** This webinar will be held on Wednesday, May 17, 2023, at 9:30 a.m. Webinar registration URL information: <https://attendee.gotowebinar.com/register/3037065951232152662>.

**ADDRESSES:** *Council address:* New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

**FOR FURTHER INFORMATION CONTACT:** Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

#### SUPPLEMENTARY INFORMATION:

#### Agenda

The Monkfish and Dogfish Committees will meet to discuss recommendations from the Sturgeon Bycatch Fishery Management Action Team/Plan Development Team and the Joint Monkfish and Dogfish Advisory Panel. They will discuss potential measures to reduce bycatch of Atlantic

sturgeon in the monkfish and spiny dogfish gillnet fisheries, developed from the recommendations in NOAA's Action Plan to Reduce Atlantic Sturgeon Bycatch in Federal Large-Mesh Gillnet Fisheries. They will also discuss the range of alternatives recommended to the Councils (New England and Mid-Atlantic) to be considered for reducing bycatch of Atlantic sturgeon in the monkfish and spiny dogfish gillnet fisheries. Other business may be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

#### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465–0492, at least 5 days prior to the meeting date.

**Authority:** 16 U.S.C. 1801 *et seq.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

### Solicitation for Members of the NOAA Science Advisory Board

**AGENCY:** Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

**ACTION:** Notice of solicitation for members of the NOAA Science Advisory Board.

**SUMMARY:** NOAA is soliciting nominations for members of the NOAA Science Advisory Board (SAB). The

SAB is the only Federal Advisory Committee with the responsibility to advise the Under Secretary of Commerce for Oceans, Atmosphere, and NOAA Administrator on long and short range strategies for research, education, and application of science to resource management and environmental assessment and prediction. The SAB consists of approximately fifteen members reflecting the full breadth of NOAA's areas of responsibility and assists NOAA in maintaining a complete and accurate understanding of scientific issues critical to the agency's missions.

**DATES:** Nominations should be sent to the web address specified below and must be received by June 15, 2023.

**ADDRESSES:** Applications should be submitted electronically to [noaa.scienceadvisoryboard@noaa.gov](mailto:noaa.scienceadvisoryboard@noaa.gov).

**FOR FURTHER INFORMATION CONTACT:** Dr. Cynthia Decker, Executive Director, Science Advisory Board, NOAA, Rm. 11230, 1315 East-West Highway, Silver Spring, Maryland 20910. (Phone: 301–734–1156), Fax: 301–713–1459, Email: [Cynthia.Decker@noaa.gov](mailto:Cynthia.Decker@noaa.gov); or visit the NOAA SAB website at <http://www.sab.noaa.gov>.

**SUPPLEMENTARY INFORMATION:** At this time, individuals are sought with expertise in an artificial intelligence and machine learning in the fields of weather and climate; environmental remote sensing; engineering for coastal resilience; social and behavioral sciences; and tropical cyclones. Individuals with expertise in other NOAA mission areas are also welcome to apply.

NOAA is also interested in expanding the diversity of expertise represented on the SAB in order to reflect better the viewpoints of the United States population. The agency welcomes scientists in the listed areas of expertise and can also provide insights and experiences derived from their ethnic, gender, and racial backgrounds and races, native- and tribal-based traditions, and experiences of those who are differently abled. Composition and Points of View: The board will consist of approximately fifteen members including a Chair, designated by the Under Secretary in accordance with FACA requirements.

Members will be appointed for three-year terms, renewable once, and serve at the discretion of the Under Secretary.

Members will be appointed as special government employees (SGEs) and will be subject to the ethical standards applicable to SGEs. Members are reimbursed for actual and reasonable travel and per diem expenses incurred in performing such duties but will not
