SUPPLEMENTARY INFORMATION: Calpine Corporation, through an agreement with the Torres Martinez Desert Cahuilla Indians, plans to construct, own and operate a 600 megawatt natural gas-fired power plant on a 40-acre parcel of tribal trust land in Riverside County, California, northeast of the town of Mecca. The parcel is located along 62nd Avenue, east of Johnson Street in proximity to the Coachella Canal.

Natural gas is proposed to be supplied to the plant by a new 10 to 12 mile gas line extending northward to a connection point north of the I-10 Freeway. Electricity produced by the plant would be routed through an on-site substation to nearby electrical transmission lines. Improvements to several miles of off-site transmission lines may also be required. Cooling water for the plant is proposed to be obtained from on-site wells. The water would be cycled, then possibly discharged for beneficial re-use at fish farms and/or vineyards on nearby Torres Martinez tribal lands.

The areas of environmental concern so far identified include air quality, biological and botanical resources, aesthetics, water resources and cultural resources. This range of issues may be expanded based on comments received during the scoping process.

This notice is published in accordance with section 1503.1 of the Council on Environmental Quality Regulations (40 CFR Parts 1500 through 1508), implementing the procedural requirements of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), and the Department of the Interior Manual (516 DM 1-6), and is in the exercise of authority delegated to the Assistant Secretary—Indian Affairs by 209 DM 8.

Dated: June 5, 2000.

Kevin Gover,

Assistant Secretary—Indian Affairs.
