**Meetings of the Drinking Water
Contaminant Candidate List
Classification Process Work Group of
The National Drinking Water Advisory
Council**

AGENCY: Environmental Protection Agency.

ACTION: Notice of public meetings.

SUMMARY: Under section 10(a)(2) of Public Law 92-423, "The Federal Advisory Committee Act," notice is hereby given of the forthcoming meetings of the Drinking Water Contaminant Candidate List (CCL) Classification Process Work Group of the National Drinking Water Advisory Council (NDWAC), established under the Safe Drinking Water Act, as amended (42 U.S.C. § 300f *et seq.*).

DATES: The dates for the NDWAC CCL Work Group meetings for the remaining year of 2003 will be as follows: March 27-28, 2003; May 12-13, 2003; July 16-17, 2003; September 17-18, 2003; and November 13-14, 2003. All meetings will be held from 9 a.m.-5 p.m. Eastern Time on the first day, and 8 a.m.-3:30 p.m. Eastern Time on the second day. Notice will be given if any dates change as the work group proceeds through the year.

ADDRESSES: All meetings of the CCL Work Group will be held at RESOLVE Inc., 1255 23rd Street, NW., Suite 275, Washington, DC.

FOR FURTHER INFORMATION CONTACT: For more information on the location and times of these meetings, or general background information, please contact the Safe Drinking Water Hotline [phone: (800) 426-4791 or (703) 412-3330; e-mail: hotline-sdwa@epa.gov]. Please contact RESOLVE if you plan to attend any of the meetings listed at (202) 944-2300. Any person needing special accommodations at any of these meetings, including wheelchair access, should also contact RESOLVE (contact information previously noted) at least five business days before the meeting so

that appropriate arrangements can be made. For technical information, please contact Dr. Jitendra Saxena, Designated Federal Officer, CCL Classification Process Work Group, U.S. Environmental Protection Agency, Office of Ground Water and Drinking Water (4607M), 1200 Pennsylvania Avenue, NW., Washington, DC 20460 [e-mail: saxena.jitendra@epa.gov; Tel. (202) 564-5243].

SUPPLEMENTARY INFORMATION: The CCL serves as the primary source of priority contaminants for research and regulatory evaluations for the Agency's drinking water program. The list is comprised of both chemical and microbial contaminants that are known or anticipated to occur in public water systems, that may have adverse health effects, and which, at the time of publication, are not subject to any proposed or promulgated National Primary Drinking Water Regulations. EPA has formed a CCL Classification Process Work Group of the National Drinking Water Advisory Council (NDWAC) to help the Agency in developing a new risk based priority setting process based upon the recommendations made by the National Research Council (NRC) in its 2001 report.

The work group is comprised of 21 recognized technical experts representing an array of backgrounds and perspectives who are as impartial and objective as possible. The work group is charged with discussing, evaluating, and providing advice on methodologies, activities, and analysis needed to implement the NRC recommendations on an expanded approach for the CCL listing process. This may include advice on developing and identifying: (1) Overall implementation strategy; (2) prototype classification methodology, classification attributes and criteria that should be used; (3) pilot projects to validate new classification approaches; (4) demonstration studies that explore the feasibility of the VFAR (Virulence-Factor Activity Relationships) approach; (5) risk communication issues; and (6) additional issues not addressed in the NRC report.

The work group has held three meetings thus far: September 18-19, 2002, December 16-17, 2002, and February 5-6, 2003. The September meeting was devoted to gaining understanding of the NRC recommendations from the invited members of the NRC panel, identifying questions, issues and technical expertise needed to fulfill its charge, and planning next steps. During subsequent

meetings, the work group formed three activity groups for small group discussions each containing 4-8 members. The three activity groups are: Data Activity Group, Methods Activity Group, and VFAR Activity Group. Each group holds several conference calls for group discussions in between the plenary meetings. The work group has discussed the methods and data to be used for selecting contaminants for the CCL, and the VFAR concept and how the concept can be included in the CCL classification process. In addition, the work group has developed the groups's guiding principles and work plan and identified additional technical needs.

The meetings are open to the public for observation purposes only. Statements from the public will be allowed at the close of each meeting day. EPA is not soliciting written comments and is not planning to formally respond to comments.

Dated: March 6, 2003.

Peter Shanaghan,

Acting Director, Office of Ground Water and Drinking Water.

Imazalil; Tolerance Reassessment Decisions; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA's tolerance

reassessment decision and related documents for imazalil including the imazalil overview, imazalil summary, imazalil tolerance decision document: Tolerance Reassessment Progress and Interim Risk Management Decision (TRED), and supporting risk assessment tolerance documents. EPA has reassessed the 32 tolerances, or legal limits, for residues of imazalil in or on raw agricultural commodities. These tolerances are now considered safe under the Federal Food, Drug, and Cosmetic Act (FFDCA), as amended by the Food Quality Protection Act (FQPA) of 1996.

DATES: Comments, identified by docket ID number OPP-2002-0333, must be received on or before April 11, 2003. In the absence of substantive comments, the tolerance reassessment decision will be considered final.

ADDRESSES: Comments may be submitted electronically, by mail or through hand delivery/courier. Follow the detailed instructions for each method as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**. To ensure proper receipt by EPA, it is imperative that you identify docket ID number OPP-2002-0333 in the subject line on the first page of your response.
