

Act for sponsors of defined benefit pension plans created an immediate need for changes to the Schedule MB and Schedule SB reporting requirements. Without these changes, accurate and complete Schedules MB and SB cannot be filed with respect to plans to which the funding relief applies. The information that would not otherwise be provided under the current schedules is essential for the Agencies to monitor and enforce compliance with the special funding rules under the Pension Relief Act. The IRS Notices 2010–83 and 2011–3, including the guidance superseding portions of the instructions to Schedule MB and Schedule SB for the 2008, 2009, and 2010 plan years, have already been approved under the Paperwork Reduction Act and released to the public. In addition, a relatively small number of Form 5500 filers, comprised of only those filers for defined benefit pension plans to which the optional relief offered under the Pension Relief Act applies, are affected by these Schedule MB and Schedule SB changes. Accordingly, the Department finds for good cause that it would be impracticable and contrary to the public interest to delay putting the technical revisions to Schedule MB and SB into place until completion of a full notice and public comment process. For the same reasons, the Department also finds good cause to adopt an effective date that would be less than 30 days after the publication in the **Federal Register** pursuant to the APA. 5 U.S.C. 553(d). Accordingly, the adoption of the technical changes affecting the actuarial schedules for the 2008, 2009, and 2010 Form 5500 Annual Return/Report will be effective as of the date of publication in the **Federal Register**. Related information also will be required to be provided on the 2011 and later Form 5500 Annual Return/Report with respect to those plans to which the alternative funding methods under the Pension Relief Act apply, as described in the Act, but for 2011 and later the information will be included in the schedules and instructions, rather than filers having to create attachments as described in IRS Notice 2010–83 and Notice 2011–3. The 2011 and later Form 5500 Annual Return/Report, Schedule SB, will also require a plan to disclose its status as an eligible charity plan in connection with a special effective date provided under the Pension Relief Act.

### III. Executive Order 12866

The Office of Management and Budget (OMB) has determined that this document does not constitute a “significant regulatory action” for

purposes of Executive Order 12866. Therefore, this action has not been reviewed by OMB pursuant to the Executive Order.

### IV. Paperwork Reduction Act

In accordance with the requirements of the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501 *et seq.*), the Form 5500 information collection request (ICR) has been approved by OMB under control number 1210–0110, which currently is scheduled to expire on March 31, 2014. This notice does not implement a substantive or material change to the ICR; therefore, the Department has not requested OMB review at this time.

Signed at Washington, DC, this 24th day of March 2011.

**Phyllis C. Borzi,**

*Assistant Secretary, Employee Benefits Security Administration, U.S. Department of Labor.*

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA–R04–OAR–2010–0798–201048; FRL–9288–8]

### Approval and Promulgation of Implementation Plans and Designations of Areas for Air Quality Planning Purposes; Georgia: Rome; Determination of Attaining Data for the 1997 Annual Fine Particulate Standard

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** EPA has determined that the Rome, Georgia, fine particulate (PM<sub>2.5</sub>) nonattainment area (hereafter referred to as “the Rome Area” or “Area”) has attained the 1997 annual average PM<sub>2.5</sub> National Ambient Air Quality Standard (NAAQS). The Rome Area is comprised of Floyd County in its entirety. This determination of attainment is based upon complete, quality-assured and certified ambient air monitoring data for the 2007–2009 period showing that the Area has monitored attainment of the 1997 annual PM<sub>2.5</sub> NAAQS. The requirements for the Area to submit an attainment demonstration and associated reasonably available control measures (RACM), a reasonable further progress (RFP) plan, contingency measures, and other planning State Implementation Plan (SIP) revisions related to attainment of the standard shall be suspended so long as the Area

continues to attain the 1997 annual PM<sub>2.5</sub> NAAQS.

**DATES:** *Effective Date:* This final rule is effective on May 5, 2011.

**ADDRESSES:** EPA has established a docket for this action under Docket ID Number EPA–R04–OAR–2010–0798. All documents in the docket are listed in the <http://www.regulations.gov> Web site. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy for public inspection during normal business hours at the Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960.

**FOR FURTHER INFORMATION CONTACT:** Joel Huey or Sara Waterson, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. Mr. Huey may be reached by phone at (404) 562–9104 or via electronic mail at [huey.joel@epa.gov](mailto:huey.joel@epa.gov). Ms. Waterson may be reached by phone at (404) 562–9061 or via electronic mail at [waterson.sara@epa.gov](mailto:waterson.sara@epa.gov).

### SUPPLEMENTARY INFORMATION:

- I. What action is EPA taking?
- II. What is the effect of this action?
- III. What is EPA’s final action?
- IV. Statutory and Executive Order Reviews

#### I. What action is EPA taking?

EPA is determining that the Rome Area (comprised of Floyd County in its entirety) has attaining data for the 1997 annual PM<sub>2.5</sub> NAAQS. This determination is based upon quality assured, quality controlled and certified ambient air monitoring data that shows the Area has monitored attainment of the 1997 annual PM<sub>2.5</sub> NAAQS based on the 2007–2009 data.

Other specific requirements of the determination and the rationale for EPA’s action are explained in the notice of proposed rulemaking (NPR) published on December 13, 2010 (75 FR 77595). The first and second quarters of 2008 were incomplete with around 73 percent completeness each. Data

substitution, as described in 40 CFR part 50, Appendix N, was used to make a complete record. EPA proposed that the Rome Area is meeting the 1997 annual PM<sub>2.5</sub> NAAQS both with and without data substitution and is now meeting the 1997 annual PM<sub>2.5</sub> NAAQS. The design value without data substitution, 13.3 µg/m<sup>3</sup>, is considered to be the official design value. The comment period closed on January 13, 2011. No adverse comments were received in response to the NPR.

## II. What is the effect of this action?

This final action, in accordance with 40 CFR 51.1004(c), suspends the requirements for this Area to submit attainment demonstrations, associated RACM, RFP plans, contingency measures, and other planning SIPs related to attainment of the 1997 annual PM<sub>2.5</sub> NAAQS as long as this Area continues to meet the 1997 annual PM<sub>2.5</sub> NAAQS. Finalizing this action does not constitute a redesignation of the Rome Area to attainment for the 1997 annual PM<sub>2.5</sub> NAAQS under section 107(d)(3) of the Clean Air Act (CAA). Further, finalizing this action does not involve approving maintenance plans for the Area as required under section 175A of the CAA, nor does it involve a determination that the Area has met all requirements for a redesignation.

## III. What is EPA's final action?

EPA is determining that the Rome Area has attaining data for the 1997 annual PM<sub>2.5</sub> NAAQS. This determination is based upon quality assured, quality controlled, and certified ambient air monitoring data showing that this Area has monitored attainment of the 1997 annual PM<sub>2.5</sub> NAAQS during the period 2007–2009. This final action, in accordance with 40 CFR 51.1004(c), will suspend the requirements for this Area to submit attainment demonstrations, associated RACM, RFP plans, contingency measures, and other planning SIPs related to attainment of the 1997 annual PM<sub>2.5</sub> NAAQS as long as the Area continues to meet the 1997 annual PM<sub>2.5</sub> NAAQS. EPA is taking this final action because it is in accordance with the CAA and EPA policy and guidance.

## IV. Statutory and Executive Order Reviews

This action makes a determination of attainment based on air quality, and will result in the suspension of certain federal requirements, and it will not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994). In addition, this 1997 PM<sub>2.5</sub> clean NAAQS data determination for the Rome Area does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule

cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 6, 2011. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

## List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Particulate matter.

Dated: March 24, 2011.

A. Stanley Meiburg,

Acting Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

## PART 52—[AMENDED]

- 1. The authority citation for part 52 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

## Subpart L—Georgia

- 2. Section 52.578 is amended by adding paragraphs (a) and (b) to read as follows:

### § 52.578 Control Strategy: Sulfur oxides and particulate matter.

\* \* \* \* \*

(a) Determination of Attaining Data. EPA has determined, as of April 5, 2011, the Rome, Georgia, nonattainment area has attaining data for the 1997 annual PM<sub>2.5</sub> NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual PM<sub>2.5</sub> NAAQS.

(b) [Reserved]
