Federal Energy Regulatory Commission

[Docket No. CP08-45-000]

Dominion Transmission, Inc.; Notice of Application

January 8, 2008.

Take notice that on December 21, 2007, Dominion Transmission, Inc. (DTI), 120 Tredegar Street, Richmond, VA, filed in Docket No. CP08-45-000, an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations seeking authorization to construct, install, own, operate, and maintain certain compression facilities located in Herkimer County, New York that comprise the Utica 7 Project. These facilities will provide increased transmission capacity, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. Specifically, DTI proposes to expand its existing Utica Compressor Station by installing an additional 2,250 HP compressor unit (Unit No. 7). Utica Station currently consists of 6 compressor engines with a total rating of 7,250 horsepower. DTI will provide firm transportation service for a Maximum Daily Transportation Quantity (MDTQ) of 15,000 Dt/day and up to a Maximum Annual Transportation Quantity (MATQ) of 5,475,000 Dt. The Project is fully subscribed by one customer for an initial term of fifteen years. The Project is designed to provide firm natural gas transportation service to Cornell University in connection with Cornell's project known as its Central Heating Project. Cornell is constructing a combined heat and power project using two gas turbine generators to ensure the necessary heat and electric capacity for the university's future while reducing greenhouse gas emissions by reducing its coal combustion. In addition, Cornell plans to construct and own an 8-inch diameter delivery line approximately 3 miles in length to connect the central heating plant on the university campus to a new interconnection with DTI. The DTI's total estimated cost for construction of the Project is \$6,381,023.

Any questions regarding this application should be directed to Matthew R. Bley, Manager, Gas Transmission Certificates, Dominion Transmission, Inc., 120 Tredegar Street, Richmond, VA 23219, at (804) 819-2877.
