

enhance the ability of the National Defense Stockpile Manager to dispose of the entire stockpile inventory of these materials by the end of FY 2003, thereby avoiding significant and continuing storage costs. These levels are also being proposed to take advantage of a possible long term sales contract for Celestite and to dispose of Quinidine that has passed its maximum shelf life. The Committee is seeking public comments on the potential market impact of these proposed increases.

The quantities of Celestite and Quinidine listed in the proposed FY 2003 AMP are not targets for either sale or disposal. They are only a statement of the proposed maximum disposal quantity of the materials that may be sold in a particular fiscal year. The quantity of the materials that would actually be offered for sale or disposal will depend on the market for the material at the time of the offering as well as on the quantity of the materials approved for disposal by Congress.

The Committee requests that interested parties provide written comments, supporting data and documentation, and any other relevant information on the potential market impact of the proposed increased disposal levels of Celestite and Quinidine. Although comments in response to this Notice must be received by August 1, 2002 to ensure full consideration by the Committee, interested parties are encouraged to submit comments and supporting information at any time thereafter to keep the Committee informed as to the market impact of the sale of the materials. Public comments are an important element of the Committee's market impact review process.

Anyone submitting business confidential information should clearly identify the business confidential portion of the submission and also provide a non-confidential submission that can be placed in the public file. The Committee will seek to protect such information to the extent permitted by law.

The records related to this Notice will be made accessible in accordance with the regulations published in part 4 of Title 15 of the Code of Federal Regulations (15 CFR § 4.1 *et seq.*). Specifically, the Bureau of Industry and Security's FOIA reading room is located on its web page, which can be found at <http://www.bis.doc.gov>, and copies of the public comments received will be maintained at that location (*see* Freedom of Information Act (FOIA) heading). If requesters cannot access the web, they may call (202) 482-2165 for assistance.

Dated: June 25, 2002.

Matthew S. Borman,

Deputy Assistant Secretary, Bureau of Industry and Security.

National Renewable Energy Laboratory, et al.; Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

This is a decision consolidated pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Suite 4100W, Franklin Court Building, U.S. Department of Commerce, 1099 14th Street, NW, Washington, DC.

Docket Number: 02-014. *Applicant:* National Renewable Energy Laboratory, Golden, CO 80401. *Instrument:* Electron Microscope, Model Tecnai G2 F20 U-TWIN STEM. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* See notice at 67 FR 35960, May 22, 2002. *Order Date:* December 11, 2001.

Docket Number: 02-015. *Applicant:* University of California, Riverside, Riverside, CA 92521-0411. *Instrument:* Electron Microscope, Model Tecnai 12 TWIN. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* See notice at 67 FR 35961, May 22, 2002. *Order Date:* December 20, 2001.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as these instruments are intended to be used, was being manufactured in the United States at the time the instruments were ordered. *Reasons:* Each foreign instrument is a conventional transmission electron microscope (CTEM) and is intended for research or scientific educational uses requiring a CTEM. We know of no CTEM, or any other instrument suited to these purposes, which was being manufactured in the United States at the time of order of each instrument.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.
