

would be generally small-diameter trees. No commercial recovery of any by-products of these treatments is proposed in the IRA's. One replacement of a ford with a culvert would also occur in the Call Mountain IRA.

- Treat two units, one Aspen and one High-Elevation Mixed Conifer, totaling 46.8 acres in the Torrey Mountain Recommended Wilderness. The Aspen would be treated with lop and scatter and the High-Elevation Mixed Conifer would be treated with daylighting of the Whitebark Pine with chainsaws only.

Possible Alternatives

1—*No Action Alternative*. Under this alternative there would be no treatment of the vegetation communities. Roads would not be reconditioned or reconstructed, and no culverts or fords would be replaced. Many of the proposed units will continue to have encroachment from conifers, decreased age class diversity, poor vigor, and higher susceptibility to insect and disease such as mountain pine beetle and blister rust.

Responsible Official

The Dillon District Ranger will be the responsible official.

Nature of Decision To Be Made

The decision to be made is whether to implement the proposed action, another alternative, or a combination of the alternatives.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the environmental impact statement. The project scoping map, as well as other project documents, can be viewed on the BDNF Web site at the following address: <http://www.fs.usda.gov/projects/bdnf/landmanagement/projects>. Hard copies may also be viewed at the Dillon District office in Dillon, MT or can be mailed upon request. To request hard or CD copies please contact Alex Dunn at (406) 683-3864 or adunn@fs.fed.us. It is important that reviewers provide their comments at such times and in such a manner that they are useful to the agency's preparation of the environmental impact statement. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public

record for this proposed action. Comments submitted anonymously will be accepted and considered, however anonymous comments will not provide the Agency with the ability to provide the responder with subsequent environmental documentation.

Dated: March 5, 2013.

Cole Mayn,

Acting Dillon District Ranger.
