FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judith B. Herman at 202–418–0214 or via the Internet at *Judith-B.Herman@fcc.gov*.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0805.

Title: Section 90.527, Regional Plan Requirements; Section 90.523, Eligibility; and Section 90.545, TV/DTV Interference Protection Criteria
Form No: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents: 21,055 respondents; 21,175 responses.

Estimated Time Per Response: 2–982 hours.

Frequency of Response: On occasion and one-time reporting requirements and third party disclosure requirement.

Total Annual Burden: 186,082 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission is submitting this information collection to the Office of Management and Budget (OMB) to request extension (no change) to this information collection. Section 90.523 requires that nongovernmental organizations that provide services which protect the safety of life, or property, obtain a written statement from an authorizing state or local government entity to support the nongovernmental organization's application for the assignment of 700 MHz radio frequencies. Under Section 90.527 in order to prepare the regional plans for the 700 MHz band, the regional planning committees will require input from those entities within their regions that will be eligible to receive licenses under the plans. Thus, the entities that seek inclusion in the plan in order to obtain licenses will be third party respondents. Section 90.545 requires that public safety applicants select one of three ways to meet TV/DTV interference protection requirements: (1) Utilize the geographic separation in the rule; (2) submit an engineering study to justify other separations; or (3) obtain concurrence from applicable TV/DTV station(s). This will reduce the potential for interference to public reception of the signals of existing TV and DTV broadcast stations

transmitting on TV channels 62, 63, 64, 65, 67, 68 or 69. Commission personnel will use the information it obtains to assign licenses, and also use the information to determine regional spectrum requirements and to develop technical standards. The information will also be used to determine whether prospective licensees will operate in compliance with the Commission's rules. Without such information, the Commission could not accommodate regional requirements or provide for the optimal use of the available frequencies.

Federal Communications Commission.

BILLING CODE 6712–01–P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

April 27, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Public Law 104–13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before July 5, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of

time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Les Smith, Federal Communications Commission, Room 1–A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to *Leslie.Smith@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Les Smith at (202) 418–0217 or via the Internet at *Leslie.Smith@fcc.gov*.

SUPPLEMENTARY INFORMATION: OMB

Control Number: 3060–0065.

Title: Application for New or Modified Radio Stations Authorization Under Part 5 of the FCC Rules—Experimental Radio Service, FCC Form 442.

Form Number: FCC 442.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions; and State, Local or Tribal Government.

Number of Respondents: 200.

Estimated Time per Response: 4 hours.

Frequency of Response: On occasion reporting requirements.

Total Annual Burden: 1,120 hours.

Total Annual Cost: \$16,500.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On August 23, 2003, the Commission released an *Order*, Amendment of Part 5 of the Commission's Rules to Require Electronic Filing of Applications for Experimental Radio Licenses and Authorizations, FCC 03–207. The *Order* was published in the **Federal Register** on October 15, 2003 (68 FR 59335). Mandatory electronic filing of applications for Experimental Radio licenses, including FCC Form 442 commenced on January 1, 2004. This change is reflected in the amendments to part 5 of the Commission's rules, 47 CFR 5.1–5.125.

Applicants that require an FCC license to operate a new or modified experimental radio station must file FCC Form 442, as required by 47 CFR 5.55 (a), (b), and (c) and 5.59 of FCC Rules. The FCC's information technician and engineers use the data supplied by applicants in FCC Form 442 to determine: (1) If the applicant is eligible for an experimental license; the purpose of the experiment; compliance with the requirements of part 5 of the FCC Rules; and (2) if the proposed operation will cause interference to existing operations. Thus, the FCC cannot grant an experimental license without the information contained on this form.

information collection(s) contact Cathy Williams at (202) 418-2918 or via the Internet at Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION: OMB Control Number: 3060-0433.

Title: Basic Signal Leakage Performance Report.

Form Number: FCC Form 320.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 33,500.

Estimated Time per Response: 20 hours.

Frequency of Response:

Recordkeeping requirement; Annual reporting requirement.

Total Annual Burden: 670,000 hours.

Total Annual Cost: None.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Cable television system operators who use frequencies in the bands 108-137 and 225-400 MHz (aeronautical frequencies) are required to file a Cumulative Leakage Index (CLI) derived under 47 CFR Section 76.611(a)(1) or the results of airspace measurements derived under 47 CFR Section 76.611(a)(2). This filing must include a description of the method by which compliance with basic signal leakage criteria is achieved and the method of calibrating the measurement equipment. This yearly filing is done in accordance with 47 CFR Section 76.1803 with the use of FCC Form 320. The data collected on the FCC Form 320 is used by the Commission staff to ensure the safe operation of aeronautical and marine radio services, and to monitor for compliance of cable aeronautical usage in order to minimize future interference to these safety of life services.

In a Public Notice (DA-04-2117) dated July 14, 2004, the Commission informed Multichannel Video Programming Distributors (MVPDs) about the requirement that all Form 320 filings must be submitted electronically as of February 1, 2005.

FEDERAL COMMUNICATIONS COMMISSION

[DA 05-699]

Telecommunications Services Between the United States and Cuba

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document is a summary of the International Bureau's decision to approve the application of Allied Communications International, Inc. to provide international voice and data service between the United States and Cuba. The International Bureau determined that the present and future public convenience and necessity require a grant of the application.

DATES: Effective March 17, 2005.

FOR FURTHER INFORMATION CONTACT:

Peggy Reitzel, International Bureau, (202) 418-1460.

SUPPLEMENTARY INFORMATION: This is a summary of the International Bureau's Order, DA 05-699, adopted on March 16, 2005, and released on March 17, 2005. The full text of this document is available for inspection and copying during normal business hours in the Consumer and Government Affairs Bureau's Reference Information Center, (Room CY-A257) of the Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. The document is also available for download over the Internet at http://hraunfoss.fcc.gov/edocs_public/attachmatch/DA-05-699A1.pdf. The complete text of this document also may be purchased from the Commission's copy contractor, Best Copy and Printing, Inc. Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (202) 488-5300.

Summary of Order

On March 16, 2005, the Commission approved the application of Allied Communications International, Inc. ("ACI") to provide international voice and data service between the United States and Cuba. ACI filed an application seeking authority pursuant to section 214 to provide the service via indirect transit through Mexico.

The Commission has authorized ACI to provide service between the United States and Cuba in accordance with the provisions of the Cuban Democracy Act of 1992. This will allow ACI to route its voice and data traffic via a Qwest point of presence in Florida to site facilities of Comsat International. Comsat International will then route the traffic via network facilities made available by several submarine cable systems. In addition, the Commission granted ACI's request for permission to modify its routing arrangement between the United States and Mexico as new business and technical developments may warrant. ACI will be required to notify the Commission of any such routing changes. Under the guidelines
