

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2023–0042]****Petition for Waiver of Compliance**

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on May 30, 2023, the Association of American Railroads (AAR), on behalf of the six Class I railroads (BNSF Railway, Canadian Pacific Kansas City, Canadian National Railway, CSX Transportation, Amtrak,¹ and Norfolk Southern Railway) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 240 (Qualification and Certification of Locomotive Engineers) and part 242 (Qualification and Certification of Conductors). FRA assigned the petition Docket Number FRA–2023–0042.

Specifically, AAR requests, on behalf of the Class 1 railroads, relief required to participate in FRA's Confidential Close Call Reporting System (C³RS) Program. AAR seeks to shield reporting employees and the Class 1 railroads from mandatory punitive sanctions that would otherwise arise as provided in §§ 240.117(e)(1)–(4); 240.305(a)(1)–(4) and (a)(6); 240.307; 242.403(b), (c), (e)(1)–(4), (e)(6)–(11), (f)(1)–(2); and 242.407. The C³RS Program encourages certified operating crew members to report close calls and protects the employees and the railroads from discipline or sanctions arising from the incidents reported per the C³RS Implementing Memorandum of Understanding.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be

submitted at <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Communications received by August 15, 2023 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable.

Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2013–0031]****Petition for Extension of Waiver of Compliance**

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that by letters dated May 18, 2023, and May 30, 2023, North Shore Railroad Company (NSHR) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 215 (Railroad Freight Car Safety Standards). FRA assigned the petition Docket Number FRA–2013–0031.

Specifically, NSHR requested an extension of a special approval pursuant to 49 CFR 215.203, *Restricted cars*, for one caboose, NSHR 61312, that is more than 50 years from the date of original construction. NSHR also requests relief from § 215.303, *Stenciling of restricted cars*, to preserve the caboose's historic appearance for operation in excursion, "VIP," and shipper service. In support

of its request, NSHR states that the caboose will be operated at a maximum speed of 50 miles per hour and that in the ten years the caboose has operated under the special approval, NSHR has "found no adverse effects on the safety of operations."

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments.
