

### Additional Ultrasonic Inspection for Certain Airplanes

(i) For airplanes on which the ultrasonic inspection specified in paragraph (h) of this AD has been accomplished in accordance with Messier-Dowty Special Inspection Service Bulletin 631-32-181, Revision 1, dated March 16, 2005: Within 25 flight hours after the effective date of the AD, do all the applicable actions specified in paragraph (h) of this AD, in accordance with Messier-Dowty Special Inspection Service Bulletin 631-32-181, Revision 2, dated June 3, 2005.

### Replacement with a Modified Side Brace Assembly

(j) At the applicable compliance time specified in paragraphs (j)(1) or (j)(2) of this AD: Remove the side brace assembly and replace it with a part modified by doing all of the actions in the service bulletin. Replacement of a side brace assembly with a modified part terminates the repetitive inspections required by paragraph (g) of this AD for that modified side brace assembly only. If the side brace assembly of the left and right MLG is replaced with a modified part, no more work is required by paragraph (g) of this AD.

(1) For airplanes on which Messier-Dowty Service Bulletin 631-32-072 has not been accomplished: Before the accumulation of 15,000 total flight cycles on a side brace assembly since new or since last overhaul, or 96 months on a side brace assembly since new or since last overhaul, whichever is first.

(2) For airplanes on which Messier-Dowty Service Bulletin 631-32-072 has been accomplished: Before the accumulation of 18,000 total flight cycles on a side brace assembly since new or since last overhaul, or 96 months on a side brace assembly since new or since last overhaul, whichever is first.

### Credit for Previous Service Bulletin

(k) Replacements done before the effective date of this AD in accordance with Messier-Dowty Service Bulletin 631-32-176, dated February 26, 2004, are acceptable for compliance with the corresponding requirements of paragraph (j) of this AD.

### No Reporting Requirement

(l) Although Messier-Dowty Special Inspection Service Bulletin 631-32-181, Revision 2, dated June 3, 2005, specifies to submit certain information to the manufacturer, this AD does not include that requirement.

### Alternative Methods of Compliance (AMOCs)

(m)(1) The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

(2) Before using any AMOC approved in accordance with 14 CFR 39.19 on any airplane to which the AMOC applies, notify the appropriate principal inspector in the FAA Flight Standards Certificate Holding District Office.

### Related Information

(n) French airworthiness directive F-2005-106, dated July 6, 2005, also addresses the subject of this AD.

Written comments to the docket will receive the same consideration as statements made at the public meeting.

### FOR FURTHER INFORMATION CONTACT:

Requests to present a statement at the public meetings and questions regarding the logistics of the meetings should be directed to Noreen Hannigan, Office of Rulemaking (ARM-106), Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591; telephone (202) 267-7476, facsimile (202) 267-5075.

### SUPPLEMENTARY INFORMATION:

#### Background

On August 4, 2005, the FAA published a Notice of Proposed Rulemaking (NPRM) titled "Washington, DC Metropolitan Area Special Flight Rules Area" (70 FR 45250; Aug. 4, 2005). The comment period closed November 2, 2005; however, in response to public request, the comment period was reopened until

February 6, 2006. In addition, the FAA also announced its intention to hold public meetings. See the **Federal Register** of November 7, 2005 (70 FR 67388; Nov. 7, 2005).

### Purpose of the Public Meetings

The purpose of the public meetings is for the FAA to hear the public's views and obtain information relevant to the final rule under consideration. The FAA will consider comments made at the public meetings before making a final decision on issuance of the final rule.

In the economic analysis to the August 4, 2005 NPRM, the FAA requested information from the public. If you have not already submitted data to the FAA on these areas, you may do so at the public meetings. The FAA requests that all comments be accompanied by full documentation.

In addition to the information sought in the NPRM, the FAA seeks information on the following questions. Again, the FAA requests that all comments be accompanied by full documentation.

- What has been the effect of the airspace restrictions on aircraft owners that relocated outside the Washington, DC Air Defense Identification Zone (ADIZ)? What has been the loss of income for those aircraft owners?
- What has been the loss in time and revenue of pilots flying longer routes to avoid the DC ADIZ or curtailing their flying because of the DC ADIZ?
- What is the percentage of reduction in overall flying because of the existence of the DC ADIZ?

### Participation at the Public Meetings

If you wish to present an oral statement at the January 12, 2006 public meetings, you should submit your request to the FAA no later than January 5, 2006.

If you wish to present an oral statement at the January 18, 2006 public meetings, you should submit your request to the FAA no later than January 11, 2006.

Your requests should be submitted as described under **FOR FURTHER INFORMATION CONTACT** and should include a written summary of oral remarks to be presented and an estimate of time needed for the presentation. Requests received after the dates specified above will be scheduled if there is time available during the meetings; however, the speakers' names may not appear on the written agendas. To accommodate as many speakers as possible, the amount of time allocated to each speaker may be less than the amount of time requested. See "Public Meeting Procedures" below.

The FAA will have available a projector and a computer capable of accommodating Word and PowerPoint presentations from a compact disk (CD) or USB memory device. Persons requiring any other kind of audiovisual equipment should notify the FAA when requesting to be placed on the agenda.

Sign and oral interpretation can be made available at the meeting, as well as an assistive listening device, if requested 10 calendar days before the meeting.

### Public Meeting Procedures

A panel of representatives from the FAA and other government agencies will be present. An FAA representative will facilitate the meetings in accordance with the following procedures:

(1) The meetings are designed to facilitate the public comment process. The meetings will be informal and non-adversarial. No individual will be subject to cross-examination by any other participant. Government representatives on the panel may ask questions to clarify statements and to ensure an accurate record. Any statement made during the meetings by a panel member should not be construed as an official position of the government.

(2) There will be no admission fees or other charges to attend or to participate in the public meetings. The meetings will be open to all persons, subject to availability of space in the meeting room. The FAA will make every effort to accommodate all persons wishing to attend. The FAA asks that you sign in between 12–1 pm., or 5:30–6:30 p.m., on the day of the meeting you are attending. The FAA will try to accommodate all speakers; however if available time does not allow this, speakers will be scheduled on a first-come-first-served basis. The FAA reserves the right to exclude some speakers, if necessary, to obtain balanced viewpoints. The meetings may adjourn early if scheduled speakers complete their statements in less time than is scheduled for the meetings.

(3) The FAA will prepare agendas of speakers and presenters and make the agendas available at the meetings.

(4) Speakers may be limited to 5–10-minute statements. If possible, the FAA will notify speakers if additional time is available.

(5) The meetings will be recorded by a court reporter. A transcript of the meetings and all material accepted by the panel during the meetings will be included in the public docket, unless protected from disclosure. Each person interested in purchasing a copy of a

transcript should contact the court reporter directly. Information on how to purchase a transcript will be available at the meetings.

(6) The FAA will review and consider all material presented by participants at the public meetings. Position papers or materials presenting views or information related to the draft final rule may be accepted at the discretion of the presiding officer and will be subsequently placed in the public docket. The FAA requests that presenters at the meetings provide at least 10 copies of all materials for distribution to the panel members. Presenters may provide other copies to the audience at their discretion.

(7) Each person presenting comments is asked to submit data to support the comments. The FAA will protect from disclosure all proprietary data submitted in accordance with applicable laws.

Issued in Washington, DC, on December 7, 2005.

### Approval of the Clean Air Section 112(i) Program for Hazardous Air Pollutants and Delegation of Authority to the Oklahoma Department of Environmental Quality

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Oklahoma Department of Environmental Quality (ODEQ) has submitted updated regulations for receiving delegation of EPA authority for implementation and enforcement of National Emission Standards for Hazardous Air Pollutants (NESHAPs) for all sources (both part 70 and non-part 70 sources). These regulations apply to certain NESHAPs promulgated by EPA, as amended through September 1, 2004. The delegation of authority under this action does not apply to sources in Indian Country. EPA is providing notice proposing to approve the delegation of certain NESHAPs to ODEQ.

**DATES:** Written comments must be received by January 12, 2006.
