SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is considering an application from Western Nuclear Inc., (WNI or licensee), submitted on July 22, 2009, requesting approval of an indirect change of control with respect to its 10 CFR part 40 source materials license SUA-56. WNI's parent company, Phelps Dodge Corporation (PDC) (currently named Freeport-McMoRan Corporation), was previously acquired in a reverse triangular merger by Freeport-McMoRan Copper & Gold, Inc. (Freeport).

On March 19, 2007, Freeport acquired the entire interest in PDC, and Freeport now owns one hundred percent (100%) of PDC. This transaction resulted in the indirect transfer of control of WNI and license SUA-56 from PDC to Freeport. WNI is requesting that the NRC consent to this indirect change of control.

WNI's application states that, as a result of the 2007 transaction, there has been no change to the licensee's operations, and that its key operating personnel and licensed activities have remained the same. WNI has, and will continue to be, the holder of license SUA-56 after the approval of the indirect change of control. WNI will remain technically and financially qualified as the licensee and will continue to fulfill all responsibilities as the licensee.

Pursuant to 10 CFR 40.46, no source material license shall be transferred, assigned, or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the Commission, after securing full information, finds that the transfer is in accordance with the provisions of the Atomic Energy Act, and gives its consent in writing. An Environmental Assessment (EA) will not be performed for this proposed action because it falls within a class of actions categorically excluded from the requirement to perform an EA pursuant to 10 CFR 51.22(c)(21).

The NRC staff plans to approve the July 22, 2009, application by issuing the necessary order, along with a supporting safety evaluation report.
